Partial View of "Beauty" Aster Field at John Bodger & Son's Co., Los Angeles, Calif. Our Supply of Florists' Aster Seed Is Obtained Exclusively from Bodger's. See Aster Page in This Book for the Reason. A. B. C.

Scene from Field of Bodger's "True Strain" Dahlia Flowered Zinnias—Our Seed of Same Is Obtained Exclusively from Bodger's (the Originators of This Wonderful New Strain). For Cut-Flowers or Display in the Garden These Zinnias Are in a Class by Themselves—Plant Freely of Them for Summer and Early Fall Cut-Flowers.

Bodger's True Strain Dahlia Flowered Zinnias "A FLORIST'S MONEYMAKER"

Exquisite. Color, light rose with center a deep rose. (Tyrian Rose).

Old Rose. This is adequately described by its name, as it is of the real old rose shade.

Illumination. Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose.)

Golden State. A very rich orange-yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.

Crimson Monarch. By far the largest and best of red shades.

Giant Attraction. A distinct shade of brick red (Spectrum Red) which carries its color well from the bud, and forms into an immense ball of color when in full bloom.

Scarlet Flame. A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.

Meteor. A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with good depth of petals. Very large.

Oriole. An immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.

Dream. A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias.

Polar Bear. A very large pure white, the best white yet seen in Zinnias.

Buttercup. An immense deep creamy yellow. A very desirable flower.

Canary Bird. A delicate shade of primrose—very large and holds its color well until out of bloom.

Price of each of above: Extra Size Trade Packet, 50c; ¼ oz., 85c; per oz., \$3.00.

Special Offer. One extra size Trade Packet, each of any seven varieties selected from above for \$3.00.

Special Mixture. A well-blended mixture containing the above novelties. Price Trade Packet, 50c; per oz., \$2.00.

"SHOPPING BY MAIL"

While we aim, through the medium of our twelve traveling representatives, to make a personal call at some time during the year on our extensive clientele situated in the various centers from Maine to California, it is of course, even with our large force, a physical impossibility for our men to visit as many of the trade as we would like to, and in consequence we have perfected our "scheme of business" to the end that you can at any time during the year SHOP WITH US BY MAIL with confidence that your interests will be taken care of, both as to quality of goods and service.

We solicit correspondence from those interested in our lines and we hope this wholesale catalogue will be retained during the coming year for future reference as to descriptions and prices when the time comes around for ordering seasonable goods. A. B. C. "SUPREME" QUALITY Bulbs and Seeds are now planted by "The particular grower from Maine to California" and our establishments at CHICAGO AND NEW YORK offer convenient centers for quick transit to all points.

EARLY ORDERS
Will, we believe
prove mutually
advantageous

Soliciting your valued commands,

Very truly yours,

AMERICAN BULB COMPANY,

Per A. Miller, Pres.

WE MENTION BELOW A FEW OF OUR IMPORTANT SPECIALTIES

A. B. C. "SUPREME" QUALITY GLADIOLUS BULBS

Produced in immense volume at points in Michigan, Indiana and Illinois under our personal supervision. Acreage is devoted to "Non-cut flower production of Bulbs," especially grown and cured for greenhouse forcing. Equally desirable for outdoor culture. We stock the following varieties in large quantities.

Mrs. Frank Pendleton
Alice Tiplady
Maiden's Blush
Flora

Lena Graetz
Mrs. Dr. Norton
Mary Fennell

Helen Franklin
Anna Eberius
1910 Rose

Arizona
America
Mrs. Francis King

Le Marechal Foch
Myrtle
Niagara

Schwaben
E. J. Shaylor
Virginia

And many other high class cut-flower varieties.

FLORISTS' FLOWER SEEDS

In addition to the general line of standard sorts, we draw particular attention to the following extra special stocks:

Ferd. Fischer's World Famous
Cyclamen Seed.

Private Stock Exhibition Pansy.
Petunias.
Snapdragons.

Early and Summer-Flowering
Sweet Peas.
New Dahlia-Flowered Zinnia, etc.

Beauty of Nice and Bismarck
Stocks.

TERMS OF BUSINESS

Routing Please give explicit shipping directions with each order, giving name of Freight, Express and Post Office Stations. If no directions are given, we will use our best judgment, but all goods travel at purchaser's risk.

Disclaimer The American Bulb Company gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds (bulbs or plants) it sells and will not be responsible for the crop.

If the customer does not accept the goods on above terms, he must return them at once, and money will be refunded or proper credit

given. We exercise, however, the greatest care to fill our orders with the highest quality possible, as it is our constant aim to give our customers fullest satisfaction.

Discounts On bills for Flower Seeds, Bulbs and Plants a discount of 2 per cent for payment 10 days from date of bill may be deducted; 5 per cent cash discount is allowed on all orders of Flower Seeds; 3 per cent on Bulbs when remittance accompanies the order, except items specially quoted or priced. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

PARCEL POST—We will be pleased to send such items as can be mailed by Parcel Post; customers to remit for postage. **We do not deliver any goods free at Wholesale Prices.**

PRICES—This list cancels all previous offers.

Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same, otherwise cash must accompany order.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D. All goods are offered subject to crop failures, shortages or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

SNAPDRAGON, JENNIE SCHNEIDER

NEW SNAPDRAGON — "JENNIE SCHNEIDER"

SENSATION OF ST. LOUIS, MO., MARKET FOR SEVERAL YEARS PAST

We have been fortunate in securing the sole agency for this new Snapdragon, and which we believe is the most valuable pink cut-flower variety in existence today.

H. G. Berning, the well-known wholesale florist of St. Louis, Mo., and president of the Society of American Florists, says of it:

"Regarding your inquiry about the Jennie Schneider Snapdragon, will say we have handled it exclusively for several years and have never been able to get enough to satisfy the demand, the retailers continually fussing because they do not get their orders filled in full.

"The color is a beautiful pink, the shade of a well-grown Columbia rose. The flowers are very close together with very long spikes. These spikes are over two feet long without disbudding.

"Mr. Schneider, the originator, starts to cut in the early fall and continues to do so right on up until the first of June.

"This variety cannot be confused with any other. It sells for at least double the price of any other Snapdragon we have ever handled, and we could have sold at least three or four times as many blooms as he was able to produce."

Price of seed, per trade pkt., \$2.00; 3 pkts. for \$5.00; 12 pkts. for \$17.50.

FOR BETTER FLOWER SEEDS

Excerpt from Florists' Review, Issue July 1st, 1926

"Don't use 'cheap' seeds. A mongrel plant takes as much space and the same care as a thoroughbred, but it does not give the same returns to the grower."

When arranging for our supply of florists' flower seed stocks with the various specialist growers of the world, price is an afterthought with us. THE PHRASE "A. B. C. SUPREME QUALITY SEEDS ARE PLANTED BY THE PARTICULAR GROWER FROM MAINE TO CALIFORNIA" is based on fact, and an increase of 40% of sales in 1926 over the year previous indicates, we believe, that our qualifications along this line are fully appreciated by the trade.

Our 1927 list will be found replete with every worthwhile kind, as well as several meritorious novelties not obtainable elsewhere.

We call particular attention to our strains of Asters, Cyclamen, Petunias, Snapdragons, Zinnias and Sweet Peas.

Prices! They will be found to be consistent with the "quality you should have for best results," and the axiom "not how cheap, but how good," should predominate in the buyer's mind when arranging for supply of same.

Soliciting your valued commands,

Yours very truly,

AMERICAN BULB COMPANY.

Chicago and New York.

FISCHER'S FAMOUS CYCLAMEN

OUR LEADING FLOWER SEED SPECIALTY

TO MY CUSTOMERS:

I have paid strict attention to my Salmon and Red shades particularly for the American trade. My seed will be offered by the American Bulb Company. It is with pleasure that I recommend all florists who are growers of high class plants to try out my seed. I hold recommendations from the best growers in the world.

Yours very truly,

FERD. FISCHER.

A. B. C. CUT-FLOWER ASTERS

Realizing the importance of the Aster to cut flower growers, we secure our supply of seed from John Bodger & Sons Co., California, who unquestionably produce the choicest Asters in the world.

Following is statement of said firm and which we have fully verified through several personal visits by members of our concern.

"We have under cultivation a large tract of land of an alluvial and peat composition which is sub-irrigated from mountain springs.

"We are able to grow Asters to perfection with no trouble from the diseases common to this plant. We have no overhead moisture from the time the fields are planted to the time the seed is harvested, and our even climate, together with our work in reselecting, is enabling us to improve our strains in Asters very materially as the seasons advance.

"Seed harvested under these conditions is of highest germination and more disease resisting."

AQUILEGIA (COLUMBINE) "COPPER QUEEN"

A dark red hybrid. The color of its broad petals is a decided copper red with long spurs of a darker hue, whilst the large open corolla shows a straw color passing later into white.

The seed of this novelty can be relied on to produce about 80% of true seedlings.

Price per trade pkt. 50c

Worth-While Seed Novelties

BEGONIA SEMPER FLORENS "GUSTAV KNAAKE"

8 to 10 inches high, with graceful, light green leaves and blooms in luxuriant exuberance, on flower-stalks richly crowned with crimson-fired blossoms about 1½-2 inches in diameter. Quite remarkable is the likeness to Begonia "Gloire de Lorraine." Can be grown constantly from seed requiring only the simple attention of the ordinary Begonia semperflorens kinds. Of great value as pot-plant for the months of June-July-August. Per trade pkt., \$1.00.

Campanula Persicifolia New Giant Hybrids

This wonderful race of giant peach-leaved Campanulas have attracted a considerable amount of attention and admiration when exhibited in London. The majestic spikes, pyramidal and branched, attain a great height, and in the distance at least look more like a Delphinium than a Campanula. The flowers are large and vary in color from pure white to deep blue. The plants are of easy culture and grow well in any moderately rich well dug soil, a well drained rather moist soil for preference, and do not object to a little shade. The seed we now offer has been saved from the following fine varieties:

Everest. Soft Blue.

Fleure de Nieve. Dbl. Pure White.

Queen of June. Light China Blue.

Shirley. Pale Blue.

Snowdrift. Large Pure White.

The King. Deep Rich Blue.

Price, per trade pkt., 75c; the set of 6 for \$4.00

Ornamental Pomegranate

A NEW CHRISTMAS PLANT

The seeds should be planted in flats in the greenhouse and when they are of suitable size to pick off, they should be planted in 2-inch pots and a little later in 4-inch pots where they will get established. As soon as the weather warms up sufficiently, they could be shifted to cold frames in the full rays of the sun and brought back into a forcing temperature about the last week in August and "forced" in a temperature of 60 to 65 degrees for the Christmas trade. They come into flower early, but the first flowers should be kept "nipped" until well on in September when they will begin to take on a general crop which will make them salable in December and for several months following.

200 seeds, \$1.00; 1000 seeds, \$4.50

LILIUM REGALE

100 seeds, 25c; 1000 seeds, \$1.50; 5000 seeds, \$6.00; 10,000 seeds, \$10.00; oz., \$3.00; lb., \$40.00. For price of bulbs, see back page.

NEW CLEVELAND CHERRY ("HOLLIED STRAIN")

A big improvement over the ordinary Cleveland Cherry. Tr. pkt. 50c

A. B. C. CUT-FLOWER ASTERS

Asters, thanks to a California specialist, namely, John Bodger & Sons Co., are now obtainable in numerous exceptional varieties and by planting the different sorts, with good handling you may have flowers from the latter part of June almost up to November. Our supply of aster seed is secured exclusively from the above named firm and is, we believe, the kind to sow for best results.

FLORIST'S FAVORITE

A New A. B. C. Introduction

While visiting Cleveland, Ohio, during the past several seasons, our president, Mr. A. Miller, noted this most unusually high quality Aster and the fact that florists invariably bought it up in the wholesale market, generally paying a premium over the price asked for other good sorts. Last Spring Mr. Miller was fortunate in securing a small quantity of seed of same, and which was grown exclusively for A. B. C. by John Bodger & Sons., Calif. Resultant crop is comparatively small and we cannot supply more than one ounce to a customer. Florists' Favorite is of the most exquisite shade of lavender-pink imaginable, full double flower of large size, and a cut flower shade the trade will, we believe, fully appreciate. Plants of strong branching habit. Per trade pkt., \$0.50; 3 for \$1.25; per oz., \$2.50.

ASTER, AMERICAN BEAUTY

(See Next Page for Description and Price)

BODGER'S IMPROVED CALIFORNIA GIANTS

(Also known on the Chicago Cut-Flower Market as "Chicago Giant Beauty.")

This new Aster is somewhat of the Crego and Beauty type, but is practically non-lateral, producing flowers of immense size without disbudding and of wonderful substance on strong, stiff stems, 20 to 24 inches long, acclaimed by wholesale and retail florists as the ideal of cut-flower asters.

White30	1.25
Mixed30	1.25

DAYBREAK ASTER—Improved Victoria

Plants 2 feet high, erect and robust habit. Flowers large, very double, recurved, closely imbricated, making it one of the best for decorative purposes.

	Tr. Pkt.	Oz.
Pink	\$0.40	\$2.50
White (Purity)40	2.50

LAVENDER GEM

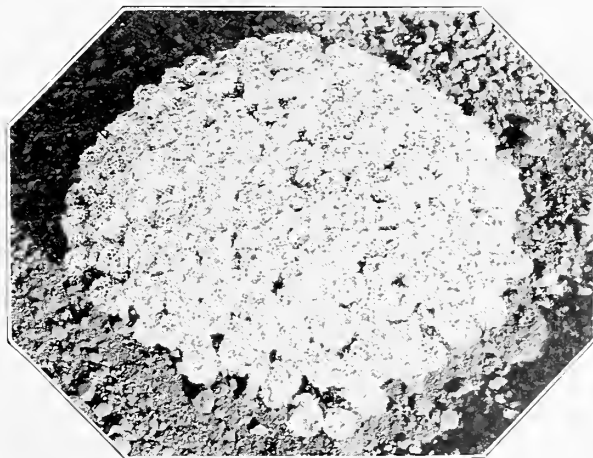

Plants about 18 inches tall, upright habit. Flowers Comet type, silvery white when young, changing to light lavender when fully expanded; really choice.... \$0.50 2.00

NEW FANCY YELLOW

This is by far the best yellow Aster on the market; it is fairly large and fully double..... \$0.50 2.00

ACHILLEA

A favorite hardy perennial; valuable for cutting. Tr. Pkt. Oz.
Ptarmica fl. pl., The Pearl. Double, pure white..... \$0.50 \$4.00

ALYSSUM "BOUQUET" OR "CARPET OF SNOW"

“SNAPDRAGON’S (ANTIRRHINUM) ARE THE VOGUE”

Snapdragons under glass are becoming one of the most profitable crops and the flowers are being used for almost every purpose—even wedding bouquets. Now that rust can be entirely prevented they are practically a sure crop if even ordinary judgment is used in growing them. Also desirable for Summer cut-flowers produced in the open.

DO NOT WET THE FOLIAGE OF SNAPS AT ANY TIME AND YOU WILL HAVE LITTLE TROUBLE WITH RUST IN GROWING THEM.

The most profitable all-season plant. Seeds may be sown any time.

GENERAL LIST OF SNAPDRAGONS

Primarily for Outdoor Culture

Provides excellent cut-flower material during Summer season.
Plant freely of them.

For Greenhouse Culture

Philadelphia Pink. Considered one of the best pure pink Snapdragons. Rich, glowing pink, approaching that of the Ward Carnation. A most useful color at all times. Beautiful under night illumination. 1 Tr. pkt., \$1.00; 6 pkts., \$5.00; 25 tr. pkts. or more at special prices.

Indian Summer

A new color—Max Schling’s Wonderful New Snapdragon. The greatest achievement in Snapdragons to date, introducing a new and bewitching color never before seen in Snapdragons—a lovely, rich, velvety and glossy copper color—indescribably beautiful. Tr. pkt., \$1.50.

White Rock

An unusual, new and extra early blooming pure white. Tr. pkt., \$2.00; 3 tr. pkts. for \$5.00.

Geneva Pink

This new variety is extremely free-flowering and comes true to color from seed. The plants are very regular, attaining a height of from 18 to 24 inches with all the flowers on the same level; is well adapted for both greenhouse and outdoor culture and cut flower purposes. Per pkt., \$2.00; 3 pkts. for \$5.00.

NEW SNAPDRAGON Antirrhinum “Jennie Schneider”

SNAPDRAGON PLANTS

From 2½-inch Pots

We supply all of the newer kinds as well as standard varieties in season, and such will be found advertised in the Florists’ Review.

NEW SNAPDRAGON “JENNIE SCHNEIDER”

SENSATION OF ST. LOUIS, MO., MARKET FOR
SEVERAL YEARS PAST

We have been fortunate in securing the sole agency for this new Snapdragon, which we believe is the most valuable cut-flower variety in existence today.

Color: Beautiful Columbia rose pink. Tr. pkt., \$2.00; 3 pkts, \$5.00.

Ramsburg’s Special Cut-Flower Strains of Snapdragons

Silver Pink; Helen, lovely salmon; Golden Pink Queen; Orlando, bronze, and Hybrid Pink, \$1.00 per pkt.; 3 for \$2.50; 6 for \$5.00. Light Pink, White, Yellow, Scarlet, Garnet, Chestnut, Nelrose, Buxton, Keystone, and Fancy Mixed, 50c per pkt.; 3 for \$1.25.

Ramsburg’s “Helen” is an exceptionally fine salmon-pink, and unusually free blooming. We cannot recommend this too highly. Tr. pkt., \$1.00; 3 for \$2.50; 6 for \$5.00.

LIBERTY. Rich deep rose-pink. A. B. C. introduction.
CHICAGO PINK. La France pink. A. B. C. introduction.

Above two varieties: Tr. pkt., \$1.00; 3 pkts. for \$2.50.

NOTE—Snapdragons recommended for greenhouse culture can be grown successfully out-of-doors, but require staking on account of tall growth. Try them for cut flowers.

Compacta. Dwarf, mixed	1.00	
Rugosa. Mixed	1.00	

Calendulas are indispensable crops in any business.

BALL'S "ORANGE" CALENDULA

(Originator's Seed)

(See Illustration on Previous Page)

A Worth-while Money Maker for the Florist

Rich, dark orange. Gives an entirely new meaning to Calendula—long stems; very large, uniformly double flowers. "It is the only strain worth your bench space." Some dealers list them as "extra fancy." Their identity cannot be hid. There are no fancy Calendulas except the Ball Calendula. Send your order direct to us. We have nothing to substitute and there are none just as good. We stand behind it. Price, originator's sealed packets, oz., \$3.00; ½ oz., \$2.00; ¼ oz., \$1.00.

"Gold" Calendula Listed in Next Column

Ball's "Gold" Calendula

(ORIGINATOR'S SEED)

(See Illustration Opposite.)

This has the same upright, long-stemmed growth and uniformly double flowers as the original Ball Calendula, orange. The color is dark golden yellow, and we feel confident that you will find the color a very desirable one.

This variety is so much better than Lemon Queen, and the call for it is so insistent by all who have seen it that we anticipate early request for all the seed we can offer of this beautiful Golden Yellow Calendula. Price, originator's sealed packets, oz., \$3.00; ½ oz., \$2.00; ¼ oz., \$1.00.

Myosotis (Forget-Me-Not) "Susanne"

Excerpt from Florists' Review.

A pot plant of a new early-flowering Myosotis has been attracting great attention in the window of the A. B. C. Day after day members of the trade stop, look and enter to inquire. Several persons outside the trade have asked if they could buy the plant, only to be told that it was an "exhibit" and not for sale. J. P. Degnan, manager of A. B. C. seed department, has named the variety Susanne, after A. Miller's little daughter. It is a selection out of the Blue Bird, perhaps the finest Forget-Me-Not to date. In addition to selling well in a cut state, it makes a splendid pot plant, but its chief value lies in its early-blooming habit. The A. B. C. has contracted for the entire crop of seeds and will disseminate this grand variety.

Price per pkt., \$1.00; 6 pkts., \$5.00. Seed of above planted in April-May usually produces good blooming plants for Christmas holidays. Especially desirable for St. Valentine's Day.

FOR "BETTER PANSIES" SOW A. B. C. "Private Stock" Exhibition Pansy Mixture

Realizing the importance of the Pansy to many growers both as cut flowers and for bedding plant sales, and the fact that FANCY PANSIES are half sold when offered to the public, we offer

A. B. C. "PRIVATE STOCK" EXHIBITION MIXTURE

FOR CUT-FLOWER OR PLANT PRODUCTION

Without exaggeration we can state that this strain represents the acme of Pansy culture.

The flowers are of enormous size and of unusual substance, with long, strong stems. This strain comprises a most beautiful collection of colors and markings, including very rare shades of scarlet, brown, blood-red and purple, and is the finest mixture, in size, color and texture. We may add that all who have seen our Pansies declared they had never seen flowers of such perfection.

The seed is saved by careful selection from the most perfect flowers only.

TESTIMONIAL

We like your seed better than any we have tried, both for quality and germination and have no trouble disposing of the bloom.

Your goods are rightly named "Supreme" Quality we think.

MRS. ALBERT LEHMAN,

E. 29th and Douglas Ave.,
Des Moines, Iowa.

TWO PAGES of "De Luxe"

Of all the plants which the florist raises from seed, Petunias of "class," both single and double-flowered, probably give best returns. We pride ourselves on the fact that the following list represents the "DeLuxe" of this worthy plant family. All of the seed offered has been hand pollenized, consequently is true to type.

From seeds sown in January, plants may be flowered in twelve weeks as opposite illustration shows. Our single and double Petunias are equally desirable for culture in the open ground or as pot plants in the greenhouse. They are being used extensively in floral work and as cut flowers.

Diener's California Petunias

Petunias for Mother's Day

Well grown Petunias, especially double-flowered varieties, are now to be classed as a most important plant for Mothers' Day sales. Easily produced and providing quick profit. We beg to call particular attention to A. B. C. Double-Flowered "Seed Producing" Strain, positively the "last word" in double flowering Petunias. See opposite page.

DOUBLE LARGE FLOWERING PETUNIA
A. B. C. Special "Seed Producing" Strain.
See opposite page for description and price.

The Newer Types of PETUNIAS

Excerpt from "The American Florist"

Petunias In Pots and Boxes

The increasing popularity of the large flowered Petunias with their brilliant coloring, fringed and waved edges of the fluffy ruffles, beautiful veining and rich color contrasts in many of the newer productions, together with their extremely large blossoms, makes them one of the most desirable bedding plants, that should be foremost on the list of every specialist in this line.

These newer type Petunias, planted in pans, can be flowered abundantly for Mothers' Day and will, when well done, make one of the best leaders for this important holiday. They also excel all other flowering plants for the window box, producing a great wealth of bloom the entire Summer. Points of vantage at every growing or retail establishment should be occupied by boxes filled with these improved Petunias, which, kept in condition, will produce a decorative effect sure to be greatly admired by all who see them and create a desire for similar adornment of their own homes.

Primula Obconica
Mohnstein and Mueller Strains

Mr. Carl Mueller, the able head-gardener of the Poehlmann Bros. Co. at Morton Grove, Ill., states as follows: "With great interest I was watching during the Summer months the obconica raised from seeds of the Mohnstein and Mueller strain. The growth was excellent, and even without flowers I had much pleasure. But now, since they are beginning to flower, I like them still more. The flowers are large and of fine color, and every visitor is surprised. Next year I will not grow any varieties but those two."

Sweet Peas for Winter and Spring Flowering

"Up-to-the-Minute" Popular Cut Flower Varieties

A. B. C. "Supreme Quality" Flower Seeds
Are Planted by "The Particular Grower"
from Maine to California

Four New (and One Older Variety, Namely
Zvolanek's Rose) Which We Particularly
Recommend to the Trade

Morse's Superior Pink (SEE ILLUSTRATION OPPOSITE)

The flower of which is unusually well formed and waved. The standard being quite round and symmetrical. The color of the flower is a beautiful rose pink, slightly shaded with salmon. The plant is a strong grower, giving plenty of four blossom sprays.

"Morse's Superior Pink" was awarded the silver medal at the last New York Spring Show, likewise the highest possible award of the Chicago Florists' Club, namely, a Certificate of Merit. Per oz., \$1.80; per ¼ lb., \$6.50; per lb., \$24.00.

Ball's Rose

The color of "Ball's Rose" is a bright deep rose with just a suggestion of amber in it and which tends to brighten the effect. Flowers of extra size and borne on extra long stems. Illustration below indicates to some extent, at least, the extreme freedom of bloom of this desirable sort. Per. oz., \$1.80; per ¼ lb., \$6.50; per lb., \$24.00.

For General List of Early Flowering Sweet Peas, See
Next Page

New Sweet Pea, Morse's Superior Pink, Awarded Silver Medal at New York
Spring Flower Show and Certificate of Merit by
the Chicago Florist's Club

Peerless Pink

This charming new Burpee Sweet Pea has flowers of immense size, artistically placed four on a stem. The standard is a luminous shade of eosine pink and the wings show a decidedly rose cast. Sheltered within its folds there is an elusive sparkle, enhanced by a warm creamy glow.

Pkt. (25 seeds), 25c; ½ oz., \$1.25; oz., \$2.25; 4 ozs., \$7.50; ½ lb., \$13.75; lb., \$25.00.

White Harmony

A black-seeded sport of that most desirable variety "Lavender Harmony," and which we believe is in itself sufficient recommendation for this grand new sort.

Per oz., \$1.80; per ¼ lb., \$6.50; per lb., \$24.00.

A. B. C.
IMPROVED

ZVOLANEK'S ROSE

The Variety Which Popularized Sweet Peas

A. B. C. Improved Zvolanek's Rose is used for "main crop" by many of the largest growers in this country. Price, per oz., 50c; ¼ lb., \$1.75; per lb., \$6.50. Write for price on quantity. We stock A. B. C. Improved Zvolanek's Rose in large volume.

New Sweet Pea BALL'S ROSE

A Variety the Trade Has Been Waiting for, Note
Freedom of Bloom

REGARDING
COMPARATIVE
PRICES

Realizing the importance of Sweet Peas as a greenhouse crop we do not attempt competition with the dealer who aims for cheapness in seed to the possible detriment of quality—the fact that we supply from year to year, numerous of the largest growers in the U. S. A., is, we believe, proof positive that our "TRUE-TO-NAME THOROUGHLY ROGUED AND HAND PICKED SEED" is preferred to "bargain priced" stocks of doubtful value.—A. B. C.

Sweet Peas for Winter and Spring Flowering

"UP-TO-THE-MINUTE" POPULAR CUT FLOWER VARIETIES

SWEET PEA, JEANNE MAMITSCH

A Giant Sport of Rose Queen. Beautiful Rose Color and Sells for Top Price in New York Market. Per oz., \$1.75; ¼ lb., \$5.00; per lb., \$18.00.

BALL'S COLUMBIA. Color, pink and white. Very early and one of the best florists' varieties, like Xmas White and Pink. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.50.

BLUEBIRD. The flowers are arranged on long stems. Much the best of all blue sorts. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$6.00.

BURPEE'S ORANGE. Glistening orange. Exceptionally good. Per oz., 65c; ¼ lb., \$2.50; 1 lb., \$8.00.

GLITTERS. A variety which is unique in itself. The color is a bright, fiery orange-salmon. The flowers are of enormous size, are beautifully waved, usually borne four to the stem. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$6.00.

GRENADE. This is the most brilliant Sweet Pea yet introduced. The color may best be described as a glowing poppy scarlet. Per oz., 65c; ¼ lb., \$2.50; 1 lb., \$8.00.

HARMONY. An exceptionally choice clear lavender. Very large flower. Per oz., 65c; ¼ lb., \$2.00; 1 lb., \$7.00.

IMPROVED SNOWSTORM. This is by far the finest of all white winter-flowering varieties. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$6.00.

LAVENDER KING. Color rich, true, deep lavender. Flowers are of large size and beautifully waved form. Extra fine. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.50.

MRS. KERE. The first early flowering salmon. Created a sensation when first exhibited at the International Flower Show in New York, March, 1921; also at the National Flower Show, Indianapolis, Ind., 1922. Per oz., 65c; ¼ lb., \$2.50; 1 lb., \$8.00.

PRINCESS. A vigorous grower with large flowers, fluted and waved. Color a lovely shade of soft lavender suffused mauve. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.00.

IMPROVED ROSE QUEEN. Color a most attractive shade of pink. Per oz., 75c; ¼ lb., \$2.75; 1 lb., \$10.00.

YARRAWA. Bright rose-pink with a clear, creamy base. Flowers average 2½ inches in diameter; many are duplex or double. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.00.

EARLY FLOWERING SWEET PEAS IN MIXTURE

Realizing that numerous of our customers can only devote limited space to the culture of Sweet Peas under glass, but at the same time desire to have an assortment of colors and shades, we have consequently made up a superior mixture from named varieties in this list and which should fully cover the above named want.

Per oz., 40c; per ¼ lb., \$1.50; per lb., \$5.00

EARLY FLAMBEAU. A large orange cerise. Per oz., \$1.50; per ¼ lb., \$5.50; per lb., \$20.00.

EARLY NEW BLUE. Per oz., \$1.50; per ¼ lb., \$5.50; per lb., \$20.00.

EARLY ROSE DORE. A beautiful rose-pink suffused with orange. Per oz., \$1.50; per ¼ lb., \$5.50; per lb., \$20.00.

EARLY STARLIGHT. A clear lavender-blue. Per oz., \$1.50; per ¼ lb., \$5.50; per lb., \$20.00.

Gilda Gray

The standard is a lovely shade of salmon-cerise overlying bright pink. The wings are a pleasing shade of Hermosa pink. Per oz., \$1.50; 4 ozs., \$4.50; 1 lb., \$15.00.

Pink Profusion

The flowers are a bright sparkling shade of rich pink. They are large, well-waved and crinkled. Per oz., \$1.50; 4 ozs., \$4.50; 1 lb., \$15.00.

Sunlight

Sunlight is a bright rose-pink on cream ground, the standard showing a deeper shading than the wings. There is a distinct creamy blotch at the base of the standard which, in addition to the creamy keel, intensifies the sunlight effect. Per oz., \$1.50; 4 ozs., \$4.50; 1 lb., \$15.00.

CHEVALIER. This fine, new rose variety is of foremost commercial value. CHEVALIER is a flower of great beauty and magnificent size. The blooms are borne in fours on fine, long stems, and the color is truly unique. It is a true rose livened with a suspicion of lemon, which gives the flower, especially when bunched, a bright and pleasing life-like effect. CHEVALIER has been awarded two Certificates of Merit—at the International Flower Show, 1922, and the National Flower Show, 1922. Per oz., 50c; 4 ozs., \$1.75; 1 lb., \$6.00.

TRUE BLUE. This lovely variety is a charming shade of true blue or light violet-blue. The flowers are of great size, much waved or crimped, strong and vigorous in growth, and most floriferous. Does not grow out of bounds. Excellent for all seasons. Awarded Certificates of Merit at the Great International Show, New York, 1918. Per oz., 50c; 4 ozs., \$1.75; 1 lb., \$5.00.

EARLY ELDORADO. A pure orange-salmon; early everblooming, of robust, vigorous habit. In color it is synonymous with the late variety, Robert Sydenham. It is practically sun-proof and does not require shading. We predict it will supersede all so-called orange varieties. Per oz., \$1.65; ¼ lb., \$5.00; 1 lb., \$18.00.

FLAMINGO. This is a distinct and charming variety. The flowers are truly enormous in size, produced in threes or fours on very long, stiff stems. The broad and well-waved standard is light orange, with a suffusion of bright salmon, and the wings are a delicate shade of orange-pink blending into a general effect of bright, light orange. The texture of the flowers is substantial. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$6.00.

GORGEOUS. A charming soft salmon-cerise self. A unique and pleasing color, and always admired. The flowers are of great size, and generally borne in threes and fours on very long, stout stems. Fine for all seasons. Per oz., 50c; 4 ozs., \$1.75; 1 lb., \$5.50.

BLUE JACKET. Dark blue. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$4.50.

MRS. WARREN G. HARDING. Deep shade of silvery blue; a very much admired color. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$6.00.

WHITE STAR. Black seeded. Flowers of enormous size, pure white, without any pink shading. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.00.

AURORA. (Novelty Color.) Striped or flaked orange-scarlet on a white ground. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.50.

GLORIOUS. Clear rosy purple. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.00.

HARLEQUIN. Striped or flaked deep chocolate on a light ground; grown in moderate quantity as a novelty. This is worth while. Per oz., 50c; ¼ lb., \$1.75; 1 lb., \$5.00.

BLUE BOY. Largest and clearest blue—abundant bloomer. Per oz., 65c; ¼ lb., \$2.50; 1 lb., \$8.00.

PINK CHEROKEE. Pink suffused salmon. Per oz., \$1.65; ¼ lb., \$5.00; 1 lb., \$18.00.

ZVOLANEX'S BLUE WONDER. A wonderful large, clear blue, the same size as the famous Zvolanek Rose. Very robust grower with mostly fours to a long, stiff stem. Color getting deeper the longer they are on the vine. Per oz., \$1.00; ¼ lb., \$3.50; 1 lb., \$12.00.

SILVER BLUE. Per oz., 65c; ¼ lb., \$2.00; 1 lb., \$7.00.

Vulcan (1925 Novelty). Rich, scarlet-orange.

Per oz., 65c; ¼ lb., \$2.00; 1 lb., \$7.00.

A real acquisition to early-flowering Sweet Peas for cut flowers. You will want this one.

SWEET PEAS

SPENCER OR "ORCHID" VARIETIES FOR SUMMER BLOOMING

We recommend these for general outdoor growing throughout the United States except in the extreme South, where Sweet Peas flower during the Winter and where the early flowering type gives best results. Many Sweet Pea lovers plant a short row of the early-flowering kinds to get the advantage of early blooms, but we recommend the Summer-flowering Sweet Peas for your principal crop for outdoor planting either during the Spring or Fall.

NEW SWEET PEA, HEAVENLY BLUE.

NEW SWEET PEA

(Summer Flowering) HEAVENLY BLUE

A fine new blue, of a most beautiful soft tone of delphinium blue.

It is a pure blue self that does not show a trace of violet.

The flowers are of immense size with fours invariably well placed on long, stiff stems.

This novelty is a very marked improvement over Mrs. Tom Jones and we believe it will be hard to surpass among late flowering blue Sweet Peas for many years to come. Price, per oz., \$1.50; per 1-4 lb., \$5.50; per lb., \$20.00.

Special Discount

For quantity orders for both early and Summer-flowering Sweet Peas we allow 10 per cent discount on purchases of 5 pounds or more in one or several varieties.

STATICE SINUATA

Used both fresh and dried. Excellent cut-flower material.

ROCK CRESS (See Arabis)

STOCKS

A. B. C. Special Florists' Strains

Stocks Are One of Our Specialties

Our percentage of doubles equals the best European strains and our grower received five "Awards of Merit" and two "highly commended" at the trial of Stocks conducted by the Royal Horticultural Society of Great Britain at Wisely, England, in 1922.

IMPROVED BISMARCK STOCKS

An especially meritorious class. These Stocks are giant, growing from twenty-four to thirty inches tall, of branching habit, producing innumerable large spikes measuring twelve to sixteen inches long, coming into bloom in ten to twelve weeks.

ZINNIAS

A. B. C. "Gold Medal" Dahlia-Flowered

A REAL FLORIST'S "MONEY MAKER"

Positively the "Last Word" in Zinnias for Cut Flowers.
See Inside Front Cover for Colored Illustrations and Complete Descriptions

Our seed is from the originator; we caution against buying inferior strains of this worthy novelty.

These new Zinnias are recommended for growing under glass for cutting as well as for outdoor planting.

We offer all varieties as follows: (Originator's new crop seed).

Exquisite. Color light rose with center a deep rose.

Old Rose. Real old rose shade.

Illumination. Deep rose.

Golden State. Orange-yellow.

Crimson Monarch. By far the largest and best of red shades.

Giant Attraction. A distinct shade of brick red (Spectrum Red).

Scarlet Flame. A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal.

Meteor. A rich, glowing deep red (Spinel Red).

Oriole. An immense orange and gold bicolor.

Dream. A fine, deep lavender, turning to purple (Mallow Purple).

Polar Bear. A very large pure white.

Buttercup. An immense deep creamy yellow.

Canary Bird. A delicate shade of primrose.

Prices of each of above: Extra size trade pkt., 50c; ¼ oz., 85c; per oz., \$3.00.

Special Offer. One extra size trade pkt. each of any seven varieties selected from above for \$3.00.

Special Mixture. A well blended mixture containing the above novelties. Price, extra size tr. pkt., 50c; per oz., \$2.00.

A. B. C. "SUPREME" QUALITY LAWN GRASS SEED

A. B. C. "SUPREME" QUALITY LAWN GRASS is just what the name implies. You will, we believe, find this a profitable side line to sell to your customers (especially those of your clientele who have been imposed upon with "chaff mixtures"). Put up in attractive cloth bags printed green; one-, two-, three-, five-, ten-, fifteen- and twenty-five-pound bags. Price 35c per pound in any quantity. Many of our customers find this a ready seller.—A. B. C.

PLEASE NOTE

Prices quoted in this list are for strong one year old field roots, NOT seedlings.

Provide a supply of hardy plants for your customers' gardens. The demand for same is large.

GROW YOUR OWN CUT FLOWERS

PLANT HARDY PERENNIALS

FOR FIELD CULTURE

Some Kinds, Particularly Delphinium, (Varieties Belladonna and Bellamosum) Are Desirable for Forcing

Excerpts From "FLORISTS REVIEW"

Perennials as Cut Flowers

Making Progress

"Never before has the usefulness of perennials as cut flowers been so manifest as this year. When greenhouse flowers began to wane and it was much too early for annuals outdoors, perennials filled in the gap and so have made for themselves lasting popularity among florists.

"Much has been published in the columns of The Review regarding perennials as cut flowers. This year has proved beyond a doubt that their usefulness as cut flowers is unsurpassed at a time when all other flowers are scarce.

"Florists, as a rule, are not too well acquainted with hardy plants, it being a little out of their line. It is for this reason the writer is giving, from experience, a brief outline of this class of plants. There are many varieties that have cut flower qualities. In fact, all of them have, to some extent."

Address by W. J. Barnes, Kansas City, Mo., delivered at the convention of the Oklahoma State Florists' Association, at Muskogee, Okla.

"For Variety in Make-up"

Hardy Perennials for Small-town Florists

I started in business as a small-town florist; I was outside of the city, doing a purely local business, and I tried to use my own resources 100 per cent. Today I am in Kansas City, and, although I am but a few blocks from the actual center of the city, and while we now have five up-to-date wholesale florists, I am still using, to a large extent, what I learned then to "get by" with.

I want to make my talk to the small-town florist who cannot slip down town in a few minutes and get what he wants. My appeal is to the man who has an acre or two and a few days or weeks at this time of the year without taking in a dollar and then without a minute's notice is up against a funeral calling for flowers that may run up to a few hundred dollars, and he is expected to be ready to meet such an emergency. If he is a resourceful man he has been working with his customers on the idea of "leave it to him to make the selection," just getting at the price they want to pay and the card. Then, if he is a man of taste with a good idea of combining flowers and colors, and has a good, well stocked garden plot, he can "ride high."

Perennial gypsophila is so much used now, fresh or dry, that I don't need to describe it, but with a bunch of gypsophila, that can be grown in his garden, some gladioli of different colors, some buddleia, or Summer lilac; lathyrus, or hardy sweet peas; helianthus,

or double hardy sunflowers; some dahlias, some lavender or white stokesias, tamarix, tuberoses and some rubrum lilies, he is fixed to meet anything.

Hardy Perennials

Their Possibilities

What can be done with perennial and garden flowers? You can make anything that can be made with any other flowers. I can remember many pretty things made entirely of garden flowers; for instance, a large wreath, about three-fourths of it of dark purple delphinium, finished with a large cluster of candidum lilies, another of English ivy leaves with a garland of asters. Only recently we made a neighborhood piece about six feet high of gladioli on an easel; for appearance it would have been hard to equal with greenhouse-grown flowers, right today and every day, we are putting up beautiful and artistic spray bouquets, panels and wreaths, that I am sure would please the most critical; and we do not use a single rose or carnation.

If you will grow a good, strong row of Tamarix hispida (shrub), you can snap your fingers at the cut ferns during the summer, when it is so hard to get ferns and to keep them; its bluish green foliage is a wonderful help to your flowers in sprays or otherwise. I prefer it to asparagus for the foliage, and the flowers do help.

I have used it with lilies, late gladioli and early mums, and it is a jewel.

I have not said anything about growing plants such as gladioli, asters, dahlias and so on, as I suppose everyone is growing and knows about them. Some of the things I have mentioned work wonderfully well with those and help to make different combinations, so that you do not get tired of the sameness. One thing I should like to call your attention to is ismene calathina, sometimes called Peruvian daffodil. It is also called the white amaryllis, which we call them. This is a bulb that you plant in the Spring in about three plantings, commencing as soon as the soil is warm, and ending about June 15 to 20. We are just cutting the last, and they work up as well as Easter lilies and are no trouble whatever to grow, and your bulbs increase in size and number.

Always remember that it pays every evening to go out and cut a lot of these flowers and put them in fresh, cold water; a cave or cool cellar is almost all they need, and if you do not use them one day, throw out those that do not look good and get more. If you do this, you will always have the stock ready to use and in the right condition to use. Your customers will not be kicking because they get a lot of wilted flowers, and gradually will get to like and use more and more of these, and you will pile up more and more dollars for your Uncle Sam to collect income tax from. But, incidentally, you get away from that awful thought, "Where are the flowers coming from to fill that order?"

A. B. C. Suggestion, a Worth-while One, We Believe

If you are not the fortunate possessor of a parcel of ground, secure a nominal supply of A. B. C. "Supreme" Quality Hardy Perennial Plants and "hire them out" to some local market gardener or farmer. This is frequently done by florists throughout the country and generally such an arrangement can be made on a basis that will provide you with summer cut flowers on a low cost basis.

PLEASE NOTE: We cannot accept orders for less than one dozen plants of a variety.—A. B. C.

We offer the following selected list of Hardy Perennial Plants for delivery the coming Spring, also Fall season, 1927. All of this stock is of strong field growth and such as will no doubt produce results the first season after planting. Not to be confounded with small pot plant stock or seedlings frequently offered at so-called bargain prices. Place order at once (this is important as some kinds are in comparatively short supply) for shipment in due season; 25 plants at 100 rate.

ACHILLEA

**ACHILLEA,
"BALL OF
"SNOW."**

Blooms all Summer.
Excellent cut flower.

Achillea Boule de Neige, and Perry's White, for ground work in funeral pieces and baskets, has taken a place in the front rank. Its lasting quality should also be mentioned; it remains in bloom fully seven weeks.

	Doz.	Per 100
ACHILLEA (See Illustration) Boule de Neige (Ball of Snow). An improvement on The Pearl. Wonderful for cut flowers or garden.....	\$1.50	\$10.00
ACHILLEA Millefolium Roseum (Rosy Milefoil). Finely cut deep green foliage; pink flowers in dense heads and found all summer.....	1.50	10.00
Perry's White . 1 to 2 feet. June to September. A choice new variety; pure white flowers; broad, overlapping petals. Nothing better for cutting..	1.50	10.00
ACONITUM (Monkshood, Helmet Flower). Aconites form bushy clumps and are invaluable for planting under trees or in shady or semi-shady positions.		
Fischeri . A dwarf variety growing 30 inches high, with very large pale blue flowers in September and October.....	2.15	15.00
Spark's Variety . July-August. Darkest blue of all. Plants.....	2.15	15.00
AGROSTEMMA Coronaria . Red.....	1.50	10.00
Coronaria Alba	1.50	10.00
ALYSSUM Saxatile (Basket of Gold). 10 in. May. Low, sprawling habit. In May the gray-green leaves are buried beneath masses of tiny golden flowers.....	1.50	10.00
ANCHUSA (Alkanet) Italica , var. Dropmore . 4-5 ft. June. Tall, branched growth. A large biennial having coarse leaves and gentian-blue flowers.....	1.75	12.00
AQUILEGIAS or COLUMBINES . Provide excellent cut flowers.		
Chrysantha . Bright, yellow, long spurred.....	1.50	10.00
Chrysantha Alba . A white variety of the above...	1.50	10.00
Chrysantha Fl. Pl. Double golden yellow flowers..	1.75	12.00

Long-Spurred Pink Hybrids . A beautiful and reliable strain comprising a large percentage of pink and rose shades. Long spurs.....	1.75	12.00
Mrs. Scott Elliott's Long Spurred Hybrids . Fine run of colors and distinct shape.....	1.75	12.00
Niva Grandiflora . Large, pure white.....	1.50	10.00
Silver Queen . Beautiful rose flowers, long spurred.....	1.75	12.00
Rose Queen . Deep pink.....	1.75	12.00

	Doz.	Per 100
ARTEMISIA Lactiflora . White. August. Grows 4 to 4½ feet tall, dark green finely cut foliage. Sweet-scented, small white flowers, to be used like Baby's Breath; but is in season August to September; fine with gladioli; one of the things that help out.....	\$2.10	\$14.00
ARTEMISIA Silver King . (Per 25 plants, \$4.00; per 50 plants, \$7.75.) See illustration.....		\$15.00
ASCLEPIAS Tuberosa (Butterfly Weed). Very attractive native plants, flowering during July and August. Umbels of bright orange colored flowers.....	1.75	12.00
ASTERS Hardy (Michaelmas Daisies). These are among the showiest of our late flowering hardy plants giving a wealthy bloom during September and October.		
Abendrothe . Deep rose. 5 ft.....	1.75	12.00
Amellus Elegans . Grows 12 to 15 inches high and produces large showy flowers of a rich bluish-violet during July and August.....	2.10	14.00
Climax . One of the best and showiest, with large pyramidal spikes of large, light lavender-blue flowers. Very free, 5 feet.....	1.75	12.00
Novi Belgii White Climax . A splendid white form of above.....	1.75	12.00
Feltham Blue . A pretty aniline blue, very free....	1.75	12.00
Mauve Cushion . Very dwarf. Delicate mauve....	1.75	12.00
Novae Angeliae . Bright purple violet. 4 ft.....	1.75	12.00
Novae-Angliae Rosea . Deep reddish violet. Height 4 ft.....	1.75	12.00
St. Edgwin . One of the finest, covered with beautiful pink flowers.....	1.75	12.00
Tartarcus . Large bluish-lilac. 6 ft.....	1.75	12.00
F. W. Raynor . Light reddish violet. Height 4 ft.....	1.75	12.00
BOCCONIA Cordata (Plume Poppy). 6-8 ft. Big, feathery heads of creamy white flowers. Tall, upright habit.....	1.50	10.00
BOLTONIA Asteroides . Among the showiest hardy plants with large single Aster-like flowers. The plant is in bloom during the summer and autumn months with its thousands of flowers open at one time, producing a very striking effect. Pure white, very effective, 5-7 feet.....	1.50	10.00

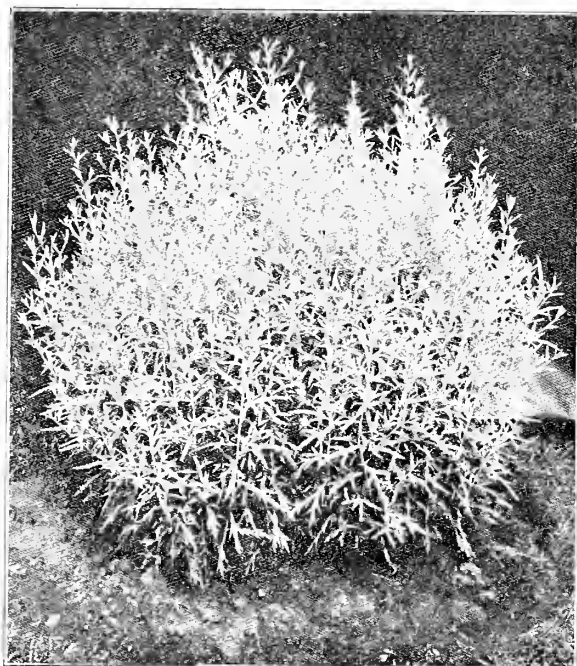

BUDDLEIA MAGNIFICA—BUTTERFLY BUSH.

Buddleia is unexcelled for blue cut-flowers, especially so when used in connection with white and light colored Gladiolus. Buddleia Variabilis Magnifica, per doz., \$4.50; per 100, \$35.00.

The Following Perennial Flowers can be used Dried—During Winter or any Time

N A M E L Y : — STATICE, GYPSOPHILA PANICULATA "BABY'S BREATH," JAPANESE LANTERN, ARTEMISIA AND ERYNGIUM.

ARTEMISIA, SILVER KING

A Plant of Rare Beauty for Landscape or Use With Cut Flowers

This Artemisia is one of such rare beauty and so valuable for various purposes that a description can hardly do it full justice.

For landscape effect from early summer until late winter, it is a most outstanding plant. Its bright silver colored stems and foliage blend harmoniously with other foliage or blooming plants and its rich, striking beauty in form and color is first to attract attention regardless of its surroundings.

For the cut flower trade the foliage of Artemisia Silver King is one of the greatest values as a filler for sprays or designs. It matures early in the summer and quickly hardens to a state when it can be cut and used without moisture. The foliage does not wilt or shatter after hardening off and can be carried dry indefinitely without losing its color. Leading cut flower dealers who handled the foliage of this Artemisia last season stated there is no other material that will produce the same high-class effect and that when used in sprays with pink roses the effect is most striking.

The illustration above was made from an actual photograph taken July 2, 1926, of a plant in the open ground which has lived through two of our most severe winters without mulch or any protection, proving its absolute hardiness. It thrives in ordinary soil, growing to a height of about three feet in almost perfect symmetrical form. The stems are well branched and thickly covered with bright silver colored foliage, which first appears in the form of small narrow leaves, but these quickly divide into a delicate lacy shape with the appearance of small flower buds all over the branches. Artemisia Silver King is a variety which evidently has been lost in propagation, as we have been unable to find it among the plantings of any growers in the United States, or to locate a grower who has ever seen the same type or color of foliage as produced by this Artemisia.

The original stock consisted of three small divisions which were secured six years ago from a very old lady who stated the plant had been in the family garden as far back as she could remember, and that to the best of her recollection it was brought to the United States from Europe by her grandmother.

Prices: Plants from 2¼-inch pots, ready for lining out in the field (April delivery), 25 for \$4.00, 50 for \$7.75, 100 for \$15.00.

EXPENSE SMALL

The expense of Perennials is small—merely a nominal first cost—they live over Winter and bloom again every year in abundance

	Doz.	Per 100
BOLTONIA		
Latisquama. Lavender-pink. 4-5 feet.....	\$1.75	\$12.00
BUDDLEIA (See Illustration) (Butterfly Bush or Summer Lilac). This is properly a shrub, but the top usually freezes back, and the new growth starts from the root like other perennials. Plants grow three to four feet and are covered with long racemes of lilac-like flowers in July. The best location is in good, rich, well drained soil in a sunny situation. It attracts the butterflies, and as many as fifty have been counted about a plant in a single afternoon.		
Variabilis Magnifica	4.50	35.00
CAMPANULA (Bellflower). A large and varied family of the greatest value for general garden decorations. They are of the easiest culture, thriving in any ordinary garden soil.		
Medium (Canterbury Bells) Blue, White or Rose. Separate	1.50	10.00
Medium Calcycanthema (Cup and Saucer). Blue, White and Rose. Colors separate.....	1.50	10.00
Carpatica, Blue and White. Separate.....	1.75	12.00
Persicifolia, Blue and Alba. Separate.....	1.75	12.00
Latifolia Macrantha. 3 feet. June and July. Very handsome, enormous drooping bells of fine satiny lilac and deep purplish shades.....	1.50	10.00
CARNATION Vienna. Market.....	1.75	12.00
CATANANCHE Caerulea (Cupid's Dart). 2 feet. July and August. Heads of pretty deep blue flowers on long stems. Profuse and excellent cut flower	1.75	12.00
Alba. Same form as above. White.....	1.75	12.00
CENTAUREA (Hardheads of Knapweed). Makes a fine display in the border; also excellent for cutting.		
Dealbata. Large and striking rose-pink flowers. June-July. 2 feet.....	1.75	12.00
Montana (Cornflower). Grows 2 feet high, bearing large violet-blue flowers from July to September.	1.75	12.00
Macrocephala. Large thistle-like, golden yellow flowers; useful for cutting and showy in borders. July and August, 3½ feet.....	1.75	12.00
HARDY CHRYSANTHEMUMS.		
Autumn Glow. Rose crimson, large.....	1.75	12.00
Little Bob. Bronze button.....	1.75	12.00
Elkton. Profuse, very compact, multi-petaled flowers of dollar size, blush white, slightly tinged lavender	1.75	12.00
Eva. Dwarf pink.....	1.75	12.00
Field of Snow. Pure white button.....	1.75	12.00
Golden Queen. Yellow, large.....	1.75	12.00
Hilda Wells. Beautiful Tuscan red, shaded yellow at base of petals.....	1.75	12.00
Skibo. Showy, golden button Pompon.....	1.75	12.00
Victory. White, large.....	1.75	12.00
CHRYSANTHEMUM MAXIMUM (Giant Moon-penny or Shasta Daisies).		
Alaska. Extra large.....	1.50	10.00
Arcticum (Arctic Daisy). Among fall flowering perennials this is one of the best. It forms an attractive clump of dark green foliage, and in September multitudes of white flowers, slightly tinged rose or lilac, 2 inches wide. 2 to 2½ ft. Sept.-Nov.	1.75	12.00
King Edward VII. New. Vigorous grower; enormous white flowers.....	1.50	10.00
Perfecta. Highly recommended for cutting.....	1.50	10.00
CHELONE (Shell Flower). Handsome perennials growing about two feet high and bearing numerous spikes of large flower heads summer and fall.		
Lyoni. Heads of showy purplish-red flowers.....	1.50	10.00
CERASTIUM TOMENTOSUM ("Snow-in-Summer"). A carpet plant, with silvery foliage and white flowers	1.50	10.00

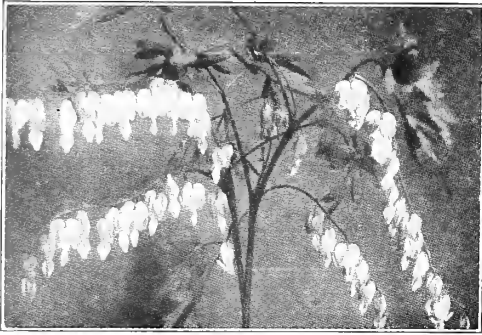

DELPHINIUM BELLADONNA. (Hardy Larkspur.)
Exceptional for Cut-flowers.

PLEASE NOTE: No order accepted for less than one dozen plants of a variety—A. B. C.

	Doz.	Per 100
COREOPSIS Delphinifolia — Larkspur Coreopsis. Very floriferous, with yellow flowers a little smaller and later than lanceolata.....	\$1.75	\$12.00

Select two-year clumps.....	2.10	14.00
English Hybrids. Unquestionably the finest strain of mixed hybrids ever offered. A grand assortment of single and double flowers. Colors ranging from lightest blue to purple, with flower spikes 2 feet long, 1-year.....	1.50	10.00
Select two-year-old clumps.....	2.10	14.00
DIANTHUS Barbatus (Sweet William). Old favorites, bearing their sweet, clove-scented flowers in the greatest profusion during May and June. They are indispensable for the edge of the hardy border and for cutting.		
Atro-Sanguineus. Blood-red.....	1.50	10.00
Copper Red. A new and rich color.....	1.50	10.00
Pink Beauty. Improved fine deep salmon pink color.....	1.50	10.00
Scarlet Beauty. Rich deep scarlet, bright green foliage, very fine.....	1.50	10.00
White Beauty. Pure white.....	1.50	10.00
DIANTHUS Deltoides. Maiden Pink. A dwarf variety with sprays of pink flowers; fine for rockery. 8 in.....	1.50	10.00
DELTOIDES Alba. A white form of the above....	1.50	10.00
Caesius (Cliff Pink). Flowers delicate rose color, fragrant.....	1.50	10.00
Erfurt. Dwarf double; mixed colors.....	1.50	10.00
Essex Witch. Bright pink.....	1.50	10.00
Her Majesty. Double white.....	1.75	12.00
Latifolius Atrococcineus fl. pl. (Everlasting Hybrid Sweet William.) Beautiful summer bedding variety producing masses of brilliant fiery crimson flowers all season.....	1.50	10.00
DIANTHUS Plumarius (Hardy Pinks).....	1.50	10.00
Plumarius fl. pl.	1.50	10.00
DIELYTRA, or DICENTRA. (See illustration.) A hardy perennial with heart-shaped, rose-colored flowers in drooping spikes. The base of the flower is furnished with two sheath-like spurs.		
Eximia (Plumy Bleeding Heart). A dwarf-growing sort, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season.....	2.15	15.00
Spectabilis (Bleeding Heart, or Seal Flower). An old-fashioned favorite; its long racemes of graceful, heart-shaped pink flowers are always attractive. It is used largely for forcing. (Special forcing grade).....	4.50	35.00
(Regular size for general planting).....	4.00	30.00

EXPENSE SMALL

The expense of Perennials is small—merely a nominal first cost—they live over Winter and bloom again every year increasing in abundance as time goes on

BLEEDING HEART

DICENTRA (DIELYTRA) SPECTABILIS

Grown as a pot plant this is a money maker for the Florist, especially so as an Easter or Mothers' Day offering

"JAY DEE" SAYS IN A RECENT NUMBER OF "THE AMERICAN FLORIST"

During a sojourn amongst the retail stores on Friday and Saturday of the past week, I was somewhat surprised to note the lack of this old favorite plant amongst the volume of roses, hydrangeas, etc., being shown especially so since the few pots of same offered were readily sold at from \$3.00 to \$4.00 each after being "dressed up" a bit. Upon examination I found that these plants were produced from two root formations which did not likely cost the grower more than 70c or 80c and since Dicentra can be readily brought into bloom in a few months' time I do not know of anything in the plant line that is more favored by the public and which will return a larger profit. Roots of the above are usually delivered in November and are stored in frames until February when they are potted up and carried in a temperature of 55 degrees. After starting into growth they require some considerable water.

"Bleeding Heart" is likewise a most desirable pot plant for Easter sales, however, for this day they should be potted up in January. It is suggested that you arrange now with your dealer to supply you with roots for delivery from 1926 crop. Do not, however, buy anything but large forcing stock. The small roots not infrequently supplied being only desirable for garden purposes, the plant being quite hardy when planted in well drained soil with a slight protection during winter season.

I might also say that in offering Dielytra for Easter or Mothers' Day sales and as a pot plant a good talking point is the fact after same has answered its purpose as a blooming plant it can be planted into the open to good advantage.

Selected Roots for Forcing
\$4.75 per doz., \$35.00 per 100

Strong Clumps for general planting
\$4.00 per doz.; \$30.00 per 100; 25 of either size at 100 rate.

Doz. Per 100

EUPHORBIA Corollata (Flowering Spurge). A branchy low-growing plant with fine stems and foliage, literally covered from June to August with loose umbels of pretty white flowers. Good for cutting in long sprays, and one of the most charming mist-flowers to mix with bouquets of Larkspur.....	1.75	12.00
FUNKIA Undulata Variegata (Day Lily). Graceful green leaves having fluted white edge. Florists now cultivate these largely in the greenhouse as a pot plant since their beautiful decorative effect makes them particularly desirable for combining with blooming and other plants in the making up of show baskets, boxes, etc., at Easter time..	1.75	12.00
Caerulea . Long, nodding, deep blue flowers. Leaves green.....	1.50	10.00
Lanceolata . Valuable by reason of its late flowering, lilac flowers in September; 2 ft.....	1.50	10.00
GAILLARDIA Grandiflora (Blanket Flower). This is considered one of the most beautiful and desirable plants in cultivation, beginning to bloom in June they continue one mass the entire season. Base of petals are scarlet crimson, bordered golden yellow. A most beautiful combination. Fine for cutting.....	1.50	10.00
Grandiflora Copper-Red . A striking color.....	1.50	10.00
GEUM . Mrs. Bradshaw. Fine double scarlet flowers throughout summer and fall. 15 inches.....	1.75	12.00
GYPHOPHILA Paniculata (Baby's Breath). A beautiful old-fashioned plant possessing a grace not found in any other perennial and attracting the eye of everyone. Dense spreading bush, numerous tiny flowers in light, feathery panicles, delicate foliage, fine for cutting, excellent for border or large rock gardens. July and August. Strong two-year-old roots.....	1.75	12.00

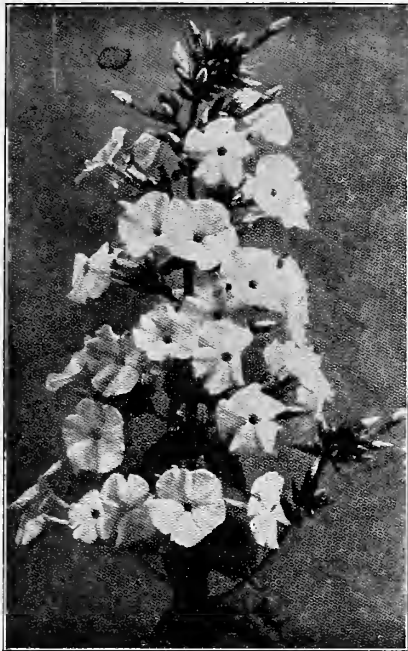

We supply a special grade of Delphinium, Belladonna and Bellamosum for forcing.

HARDY LILIES

SUCH AS

L. Auratum, L. Speciosum, Album, Rubrum, Magnificum, etc.

Provide excellent cut-flower material for use in conjunction with various hardy perennials.

PHLOX, MISS LINGARD. "The Cut-Flower Phlox."

Fritz Bahr, the well-known florist and horticultural writer, states in his book, "Commercial Floriculture" as follows: "If I had to name the one best Phlox for the florist, here it is. Every retail grower should have a few hundred plants to cut from." Per Doz., \$1.75; Per 100, \$12.00.

HEMEROCALLIS

	Doz.	Per 100
Flava (Lemon Lily). Crowned by beautiful lemon-colored flowers 3 to 4 inches in diameter, and delightfully fragrant	\$1.50	\$10.00
Thunbergi . Much like Flava, but flowers in July, a month later, and 6 to 10 inches of the upper portion of the flower scapes are thickened and flattened	1.50	10.00
Minor . Dwarf lemon yellow. First of June.....	1.50	10.00
HELENIUM Autumnale Superbum . Light yellow..	1.50	10.00
Hoopesi . Yellow	1.75	12.00
Riverton Gem . Old gold, changing to wallflower red. August and September. 4 feet.....	1.75	12.00
HOLLYHOCKS . We have this season a fine lot of strong, clean, healthy, vigorous one-year-old flowering plants of the finest strains under Double Pink, Double Red, Double White, Double Yellow, Maroon	1.50	10.00
New Allegheny . Immense semi-double flowers, with fringed edges.....	1.50	10.00
Single, Red, Pink, White	1.50	10.00
IBERIS, Sempervirens . Hardy Candytuft. Flowers white, 10 in. April-May.....	1.75	12.00
LATHYRUS (Hardy Everlasting Pea). One of the best and most desirable flowering hardy climbing plants, attractive both in flowers and foliage, growing to a height of 8 to 10 feet, and producing cluster of large flowers the entire summer; fine for cutting; lasting well.		
Alba . Pure white.....	1.50	10.00
Latifolius . Deep rosy-red	1.50	10.00
Rosea . Pink	1.50	10.00
LIATRIS Pycnostachya . Kansas Gay Feather. Purple. 4 to 5 ft. July-August. Provides an excellent cut-flower	1.75
LYCHNIS Viscaria Splendens . Spikes of handsome, double-red flowers on stems one foot high, blooms in June.....	1.50	10.00
Haageana . Brilliant orange-scarlet flowers in May and June. 12 inches.....	1.50	10.00
LYTHRUM Roseum Superbum . Shrubby perennial 2 to 5 feet, at its best in cool and moist location, although quite successful in the average border and among shrubs.....	1.75	12.00

MALLOW MARVELS. A giant race derived from the common native Hibiscus, which has elevated this type almost to the dignity of shrubs. Massed in great groups or generously interspersed with shrubs, these "Marvels" grow very rapidly, sometimes getting up to 8 or 10 feet in height, with plenty of broad foliage to furnish a rich setting for the mammoth flowers.

Moscheutos . Strong, one-year old.....	\$1.25	\$ 8.00
Crimson Eye . Strong, one-year-old.....	1.25	8.00
Marvel Mallows . In choicest mixture. Strong one-year-old	1.50	10.00
MONARDA Cambridge Scarlet (Bergamot). Brilliant crimson scarlet, showy plants growing from 2 to 3 feet high, succeeding in any soil or position, with aromatic foliage and producing their bright flowers during July and August.....	1.75	12.00
OENOTHERA Evening-Primrose. Frasierie . Erect habit, fine deep golden flowers.....	1.50	10.00
PACHYSANDRA Terminalis . One of the best ground covering plants, averaging 6 to 8 inches in height and branching freely into a dense mat. Its shapely indented foliage is practically evergreen; thick, rubbery, lustrous dark green. It bears small spikes of light colored flowers during May and June.....	1.75	12.00
Polemonium Coeruleum	1.50	10.00
PAPAVER Orientale. Mrs. Perry . Apricot orange	2.15	15.00
Orientale. Scarlet	2.15	15.00
PENTSTEMON Barbatus Torreyi . (Beard Tongue.) Slender spikes of bright scarlet flowers. 4 feet. June-August	1.50	10.00
PHLOX . (See illustration.) Strong field grown.		
Baur's Pink . Bright deep pink. An improved "Sunset"	1.75	12.00
B. Compte . Deep, rich ox-blood red.....	1.75	12.00
Eclairer . Brilliant rosy magenta, white eye.....	1.75	12.00
M. P. Langier . Red.....	1.75	12.00
Mrs. Jenkins (tall). The best tall, early white for massing	1.75	12.00
Miss Lingard . Pearly white flower, with delicate pink eye. Very remarkable bloomer, producing two or three crops of flowers during the season; indispensable as a cut flower for florists' use....	1.75	12.00
Obergartner Wittig . Bright magenta with light halo and crimson eye. One of the best aureoles.	1.75	12.00

Early orders will, we believe, prove mutually advantageous.

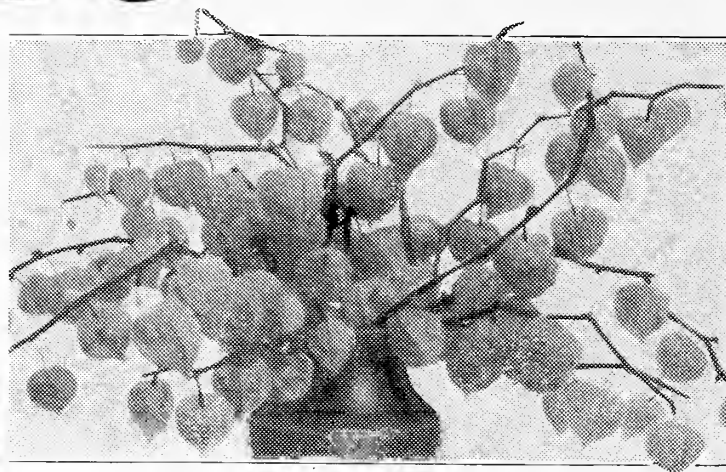

TRITOMA PFITZERI.

Tritoma "Red-hot Poker" blooms in August-September and is in a class by itself for decorative work, show window, basket filling, etc., Per doz., \$2.00; per 100, \$15.00.

Hardy Phlox (Continued)

	Doz.	Per 100
Professor Virchow (Medium). Bright carmine overlaid with orange-scarlet	\$1.75	\$12.00
Peach Blossoms. Delicate peach-blossom pink; dwarf	1.75	12.00
Rheinlander (Medium). Beautiful striking salmon-pink with individual flowers and trusses of very large size	1.75	12.00
Sieboldi. Crimson	1.75	12.00
Special French. Glowing pink. Mammoth trusses	1.75	12.00
Sunset. Deep pink	1.75	12.00
Van Lassburg. Pure white	1.75	12.00
PHLOX, Subulata (Moss Pink). The moss-like foliage covers the ground like a carpet; covered in April and May with a blanket of white or pink flowers.		
Alba. Pure white	1.50	10.00
Amoena. 4 in. high, bright pink	1.50	10.00
Lilacina. Soft lilac	1.50	10.00
Rosea. Bright pink	1.50	10.00
PHYSOSTEGIA Virginica (American Heather).		
Lavender pink	1.50	10.00
Alba. Pure white, very fine	1.50	10.00
Gigantea. New dwarf pink	1.75	12.00
PHYSALIS Francheti (Japanese Lantern Plant). An ornamental variety of the Winter Cherry, forming dense bushes about 2 feet high, producing freely its bright, orange-scarlet, lantern-like fruits	1.75	12.00
PLATYCODON Grandiflorum (Chinese Bellflower).		
June to September. Blue	1.50	10.00
Alba. White Bellflower	1.50	10.00
Mariesii. Large blue	1.50	10.00
Japonica fl. pl. from seeds	1.50	10.00
PYRETHRUM Hybridum (Painted Daisies). Red, white and pink mixed, blooms in June and July, a most beautiful hardy plant	1.75	12.00
Uliginosum (Giant Daisy)	1.50	10.00
RANUNCULUS (Buttercup). Well-known double yellow buttercup, effective either as a cut flower or grouped in the hardy borders.		
Asiaticus. Flowers in May, variable in color, generally double in form	1.50	10.00
Repens fl. pl. A pretty, double-flowering, bright golden yellow buttercup; flowers in May and June	1.50	10.00
RUDBECKIA (Golden Glow). We question if any one hardy perennial plant has met greater popularity than this. It is a strong, robust grower, attaining a height of 5-6 feet and produces masses of double golden yellow Cactus Dahlia-like flowers from July to September	1.50	10.00
Newmanii (Black Eyed Susan). Dark orange yellow flowers, with deep purple cone, borne on stiff, wiry stems three feet high. July to September ..	1.50	10.00
SALVIA Azurea (Meadow Sage). A Rocky Mountain species. Grows 3 to 4 feet high, producing during August and September pretty sky-blue flowers in the greatest profusion	1.50	10.00
Pitcheri. Rich gentian blue	2.50	18.00
SCABIOSA Caucasia (Pin Cushion Flower). Blue Bonnet. A soft and charming shade of lavender; commences to bloom in June	2.50	18.00
SPIRAEA Aruncus. A fine variety growing from 3 to 5 feet high, with long, feathery flowers in June and July	4.50	35.00
Chinensis. Large heads of silvery pink flowers ...	3.50	25.00
Filapendula. Fern-like foliage with white flowers on stems 15 inches high. June and July	1.75	12.00
Ulmara Flora Plena (Meadow Sweet). One of the most useful hardy plants, grows about 3 feet high, and produces its double white flowers during June and July	1.75	12.00
STACHYS Lanata. Silver leaves	1.75	12.00
STATICE Latifolia (Sea Lavender). Grows 15 to 18 inches high with tufts or clumps of thick, leathery foliage and immense panicles of delicate blue flowers. Individual flowers very minute, similar		

JAPANESE LANTERNS (Physalis Francheti).

This wonderful decorative plant is easy to grow and multiplies rapidly. A big money maker that will yield more than any other outside crop. The fruits are becoming more popular each year for decorative purposes in the early fall and winter. The color of these lantern fruits is orange-vermilion and are everlasting after drying. Introduced to horticulture from the Cape of Good Hope.

Single plants produce as many as thirty lanterns that sell readily in any flower market. They are beautiful for home decoration, being an everlasting.

We offer strong root divisions to mature the coming summer. Per 25, \$3.50; per 50, \$6.50; per 100, \$12.00.

	Doz.	Per 100
in form to the Forget-me-not, but made into heads 18 inches or more across. Provides an excellent cut-flower, either fresh or dried	\$1.75	\$12.00
STOKESIA Cyanea (Cornflower Aster). Large blue flowers. 4 inches in diameter. July-October. 1½ feet	1.50	10.00
THALICTRUM Aquilegifolium. Meadow Rue. Pure white. 1 to 3 ft. May-July	1.75	12.00
Adiantifolium. Leaves resemble Maidenhair fern. Yellow. 1 ft. June-July	1.75	12.00
TRITOMA (Pfizeri). (See illustration.) Red Hot Poker plant. Orange-scarlet. Aug.-Sept.	2.00	15.00
VALERIANA Alba (Garden Heliotrope)	1.50	10.00
Officinalis (Hardy Garden Heliotrope). Light pink. 3 to 5 ft.	1.50	10.00
Coccinea. Red	1.50	10.00
VERONICA Longifolia Subsessilis (Speedwell). A 2-foot border plant with attractive foliage of distinct character, a roughened bronze green. Flowers are borne abundantly during July and August in long compact spikes. Deep blue	1.75	12.00
Incana. Deep blue flowers with silvery foliage. 1 foot. July-August	1.75	12.00
Rupestris. Heavenly blue. Flowers earlier than above	1.75	12.00
Rupestris. Dwarf and spreading. Pink	1.75	12.00
Spicata. 18 inches. June and July. Long spikes of violet-blue flowers	1.75	12.00

DOUBLE LARGE FLOWERING TUBEROUS-ROOTED BEGONIAS

TUBEROUS-ROOTED BEGONIAS AND GLOXINIAS

“TRUE BELGIAN STRAIN”

**Are Again Obtainable Especially in Large
Size Bulbs for Pot Culture**

TUBEROUS-ROOTED BEGONIAS

FOR POT PLANTS AND BEDDING

Tuberous-Rooted, Single. Large blooming bulbs. Scarlet pink, crimson, yellow, salmon, white. Per 100, \$12.50.

Tuberous-Rooted, Double. Large blooming bulbs. Crimson, scarlet, yellow, salmon, white, pink. Per 100, \$15.00.

GLOXINIAS

Exceptional for Pot Plants. Large blooming bulbs. Separate colors.
1¼ to 1½-inch\$18.00
1½ to 2 -inch 20.00
25 of any of above at 100 rate.

“For early flowering you plant the bulbs, or rather tubers, about January, in flats or sandy soil, barely covering the tops. Place on a propagating bench with a good bottom heat, or on the return pipes, and keep fairly moist—not soaking wet. As soon as growth appears, pot them up in 3½-in. pots and place in a 55-deg. house on a sunny bench. Such early started ones may flower for Easter, even if that day does come in April, and beautiful, attractive pans can be made up by using three or five plants to an 8-in. pan. For bedding purposes start about the early part of March and treat the same way, but during April and May carry the plants in an airy and rather cool house, to avoid a soft growth. Another batch can be started about April 1st, and the plants after being potted up, brought to a hotbed where later on the sashes can be removed and the plants hardened off.”

Previous to the United States embargo, Tuberous-rooted Begonias and Gloxinias were in the greatest favor as a pot plant, likewise for bedding in partially shaded situations; however, until the present American growers had not succeeded in producing sufficient stock of first quality to anywhere near supply the demand. One of our specialist growers has, however, now furnished us with a considerable number of both, and we might say that the quality is even superior to the majority of bulbs which were formerly imported from specialists in Belgium.

GLOXINIA, TRUE BELGIAN STRAIN

TRUE TO
NAME

Large Flowering CANNAS

CANNA, THE PRESIDENT.
The "Last Word" in Red-Flowering Green-Leaved Cannas

CANNAS LARGE FLOWERING A.B.C. "Supreme Quality"

Strong 2 to 3 Eye Dormant Roots

With their delightful tropical foliage, and brilliant flower spikes produced all Summer long, Cannas are probably the greatest of all plants for the grounds of public parks, cemeteries, hospitals, etc., where massed effect is required, and to a lesser degree for the adornment, with other plants, for the beds and borders of private residences. Florists who cater to such a class of trade should have a good supply of started plants ready when the planting season commences. Our Cannas are grown by one of the most reliable southern growers, carefully harvested and divided with from two to three growing eyes.

This list comprises all the leading sorts wanted by the trade, healthy and true to name.

King Humbert. This remarkable Gold Medal Canna has been the sensation of the past ten years and is the greatest favorite today. It is a cross between the orchid-flowering and the French, or Crozy type, combining the large flowers of the one with the free-blooming character of the other, with handsome, broad, tropical foliage. Scarlet flowers; bronze leaves. (Scarce crop; very short).....	5.00	45.00
Mrs. Alfred Conard. One of the very best Cannas in commerce today. Large, exquisitely shaded salmon-pink flowers are produced in great abundance on robust, upright stalks. We consider this as superior to all pink flowered Cannas. 4 ft. (crop short).....	6.50	60.00
The President. 4 feet. This immense new flaming scarlet has come into wider use more quickly than any other Canna. It is an offspring of the famous Firebird. The President leads the red varieties in the quality and also the quantity of its bloom. The flowers are 7 inches across; the individual petals are firm and long standing, and do not burn, and the trusses stand up stiff on strong stems. The foliage is rich green and burn-proof in the hottest weather. (Crop short).....	5.00	45.00
Yellow King Humbert. 4 feet. An orchid-flowering sport of the well-known King Humbert. Has the same habit of growth as its parent; foliage a very dark green, with flowers measuring 5 to 7 in. across; individual petals measuring 3 to 3½ in. in diameter. Flower a deep rich yellow, softly spotted and blotched with bright red. Some plants occasionally give a scarlet or scarlet striped flower, which we consider an improvement rather than a detriment.....	5.00	45.00

Various Colors, Bronze Foliage

Ambassador. Brilliant cherry red, bronze foliage 4 ft.....	\$8.50	\$80.00
Wm. Saunders. Brilliant scarlet; bronze foliage....	3.50	30.00
Brandywine. 3½ feet. Wine red.....	3.50	30.00
King Humbert. Scarlet, the great favorite.....	5.00	45.00
Shenandoah. 4 feet. Salmon-pink.....	3.50	30.00
Mrs. Woodrow Wilson. 4 feet. Soft carmine pink flowers large.....	5.00	45.00
Wyoming. Beautiful orange.....	3.50	30.00

Pink Shades, Green Foliage

City of Portland. Deep pink. Green foliage 3½ feet. Extra good flower. Does not fade.....	\$8.50	\$80.00
Mme. Berat. 4 feet. Rose-pink.....	3.50	30.00
Hungaria. 3½ feet. La France pink.....	8.00	75.00
Mrs. Alfred Conard. Salmon-pink.....	6.50	60.00
Venus. Rosy pink, bordered creamy yellow.....	3.50	30.00

Yellow Shades, Green Foliage

Florence Vaughan. 5 feet. Yellow, spotted crimson.....	\$3.50	\$30.00
Gladiator. 4½ feet. Golden yellow, dotted crimson...	3.50	30.00
Gustave Gumpfer. Yellow.....	3.50	30.00
Indiana. Rich golden orange.....	3.50	30.00
Orange Bedder. Green foliage. Bright orange with just enough scarlet suffusion to intensify the dazzling mass of color. A very free bloomer. 4 feet.....	5.50	50.00
Richard Wallace. Canary-yellow.....	3.50	30.00
Yellow King Humbert. 4 feet. Deep rich yellow, spotted bright red.....	5.00	45.00

White Shades, Green Foliage

Eureka. 4 feet. The best white.....	\$5.00	\$45.00
Imp. Mont Blanc. 3½ ft. One of best white Cannas. 4.50	4.50	40.00

TYPE OF CACTUS DAHLIA
(One-half natural size)

DAHLIAS

A selected list of varieties especially recommended for cut-flowers.
Equally desirable for garden show. All supplied
in strong dormant root divisions.
True to name.

Jersey's Beauty (Decorative), a true decorative flower of real merit, excellent formation, strong, straight, stiff stems, large in size, good depth and good keeper; color, a beautiful clear rose-pink—a cut-flower variety without a peer. If you have room for but a few dahlias don't fail to include this unusually desirable sort.

Price, each, \$1.50; per doz., \$17.50.

	Each	Dozen	Per 100
A. D. LIVONI. Show—Soft pink free bloomer.	\$0.17	\$1.75	\$12.00

Plant Gladiolus "Virginia" for Cut-Flowers

DAHLIAS

(CONTINUED)

The dahlias listed on these pages are produced by a specialist who prides himself on cultivating only varieties that “stand out,” particularly for cut-flowers.

Excerpt from Florists' Exchange

DAHLIA JERSEY'S BEAUTY WINS AWARD

Dahlia Jersey's Beauty, after trial at the R. H. S. Gardens at Wisley, England, this season, has been granted the joint award of merit by the R. H. S. and National Dahlia Society. This variety apparently was the only American sort to gain the award.

TYPE OF DECORATIVE DAHLIA
(One-half natural size)

	Each Dozen Per 100		
MAUD ADAMS. Show—Color pure snowy white overlaid with pink. This indeed is a wonderful variety and one that no retail florist can do without. Peony and Cactus Types of Dahlias Seemingly Are Taking the Lead for Cut-Flowers

AMERICAN GROWN

FREESIAS

Freesia Purity—Improved

We believe we are the largest handlers of high-grade Purity Freesia bulbs in America. All our fields are thoroughly examined during their growing stage by members of the firm to insure our customers the best the crops can produce. We can deliver Freesia bulbs early enough to enable you to get them in bloom for Christmas, if properly handled. Our bulbs are not grown in the wet districts of California, but are properly watered by irrigation. They are all grown near Los Angeles, which florists in California recognize as the best place to grow high-grade bulbs. The fact that we sell quantities in California of our own growing is evidence that florists know where the best quality is produced. Bulbs offered in the following sizes:

Per 1000

Improved Purity, $\frac{1}{2}$ - $\frac{5}{8}$	} WRITE FOR PRICE
Improved Purity, $\frac{5}{8}$ - $\frac{3}{4}$	
Improved Purity, $\frac{3}{4}$ - $\frac{7}{8}$

IMPORTANT NOTE

The bulbs which we deliver to you are produced for us by one grower to assure a fixed strain of the best quality. It is important that you do not receive mixed lots from many growers.—A. B. C.

FREESIAS—A. B. C. Improved Large-Flowering "Purity"

Grow More Freesias

"There is hardly any other flower that the florist, particularly the retail grower, handles during the Winter and early Spring months as useful as the Freesias. Whether you have to fill an order for a bride's shower bouquet, a corsage, a funeral design, a spray, a basket for the table or a box to go to the sick room, Freesias are most appropriate; nor can you mention any flower that they won't go with. They can be had in flower from Christmas to Easter, and among the crops it pays even the small grower to handle; they hold first place."

FREESIAS—For December Flowering

"'Freesias.' That sounds like the approach of Fall and Winter; and that is exactly what we have to look forward to and to prepare for. The first batch of Freesias should be planted during July if blooms are desired toward the end of December, and only large sized bulbs should be used for this purpose. Freesias cannot be forced so as to get them in extra early, but matters can be helped along by using large bulbs. Grow these in pots or pans, allowing not less than one inch of space between the bulbs. During October, November and December, allow the plants to have a sunny bench in a carnation house. Up to October, carry the plants outdoors in a cold frame, while freshly potted bulbs should be shaded; as soon as growth is under way, permit them to have full sunlight. Why not order your requirements in the way of bulbs now? It is a poor policy to commence looking around for bulbs when ready to plant them out."—From writings of Fritz Bahr, noted horticulturist, in the Florists' Exchange.

Gladiolus *for* Forcing

AND FIELD CULTURE

For greenhouse forcing, we can make delivery during the months of December, January, February, as desired. We grow our own bulbs under contract with specialists, and we can supply all of the leading varieties as well as novelties. Our usual output is eight million Gladiolus bulbs per year. We suggest early orders for shipment as desired.

Curing

Curing Gladioli is one of the most important items in the handling of the bulbs. We have the proper facilities, adapted from the method now used in Holland in preparing Hyacinths, and which enables us to make early delivery for planting under glass.

"Out of Luck"

The Florists' Review, August 21, 1924, issue, said editorially: "It begins to look as if the grower who has clung to the older varieties of Gladioli is out of luck. If the action of the cut flower market is an indication, only the newer and better varieties will be in demand for next planting season."

The above prediction has become prominently true. The newer and better varieties are truly now the vogue.—A.B.C.

The "Last Word" in Cut-Flower

GLADIOLUS

"CALIFORNIA VIRGINIA"

"California Virginia" originated by the Dean of Gladiolus Hybridizers, Mr. A. E. Kunderd, Goshen, Indiana, and named by him "Scarlet Princesps," re-named "Virginia" in California.

No Gladiolus we believe has created such a sensation since the introduction of "Mrs. Frank Pendleton," likewise originated by Mr. A. E. Kunderd.

INTRODUCED BY

Mr. A. E. Kunderd, known to Gladiolus lovers the world over as the "wizard" in originating what are probably the choicest varieties of Gladiolus in existence today, both from the standpoint of commercial cut-flower value, as well as garden decorative quality.

In the year of 1917, Mr. A. E. Kunderd originated and catalogued "Scarlet Princesps," now known in California as "Virginia," a variety of outstanding merit and having wonderful keeping qualities; its beautiful color resembles a good, dark Premier rose, the flowers being well formed on the stem. This immediately became the sensational Gladiolus of the country. Every one who saw Scarlet Princesps wanted stock of it, and the same found ready buyers at \$5.00 per bulb.

To mention further qualifications regarding this variety, we might add that our Mr. Miller when visiting Mr. A. E. Kunderd in Goshen, Indiana, four years ago, brought to Chicago a collection of Gladiolus blooms presented to him by Mr. Kunderd, and amongst these flowers was the variety "Scarlet Princesps." Several prominent retailers here in Chicago, who were shown this exceptional sort, invariably wanted a supply immediately, but unfortunately, Mr. Kunderd had only a few of the same which were needed for his retail trade, so we considered ourselves fortunate indeed in finding this variety in California, altho under a different name, and it is now the most outstanding Gladiolus in commercial use. It forces in the greenhouse 100%. Its distinct light red color, with strong stems, and a mass of flowers, six or more blooms opening at one time, makes it everything desired in a good Gladiolus and we congratulate Mr. A. E. Kunderd, the originator, for bringing forth this exceptionally fine sort and to enable florists to possess planting stock at a reasonable price.

The American Gladiolus Society in their Official bulletin, October, 1923, issue, give the following explanation:

"SCARLET PRINCESPS"

vs.

"POOLEY'S VIRGINIA"

"For several years there seems to have been a controversy over two varieties of Gladiolus; viz., 'Scarlet Princesps,' originated by A. E. Kunderd, and 'Virginia,' introduced by A. W. Pooley.

"In order that this question might be settled, last year we procured from A. E. Kunderd fifty bulbs of 'Scarlet Princesps' and also fifty bulbs of 'Virginia' from A. W. Pooley. These bulbs were all of the same size, and were planted in the A. G. S. Exhibition Gardens, side by side, and carefully watched. The date of planting, even to the hour, was the same. The germination, or sprouting, the foliage, the height, the length of spike, and the flowers themselves were carefully watched, and opinions were asked of many who visited the gardens. In each instance there could be no difference whatsoever found between the two flowers."

We, therefore, think that this question is now settled for all time, and that "Scarlet Princesps" and Pooley's "Virginia" are synonymous. The credit should be given to A. E. Kunderd, as originator.

Mr. A. E. Kunderd has introduced varieties that are now standard in the cut-flower trade, a few of which are as follows:

Alice Tiplady
1910 Rose
Rose Glory
Mona Lisa

Dr. Norton
A. E. Shaylor
Mrs. Frank Pendleton
Remembrance

also many hundred varieties which stand out as the foremost Gladioli, now being grown all over the world.

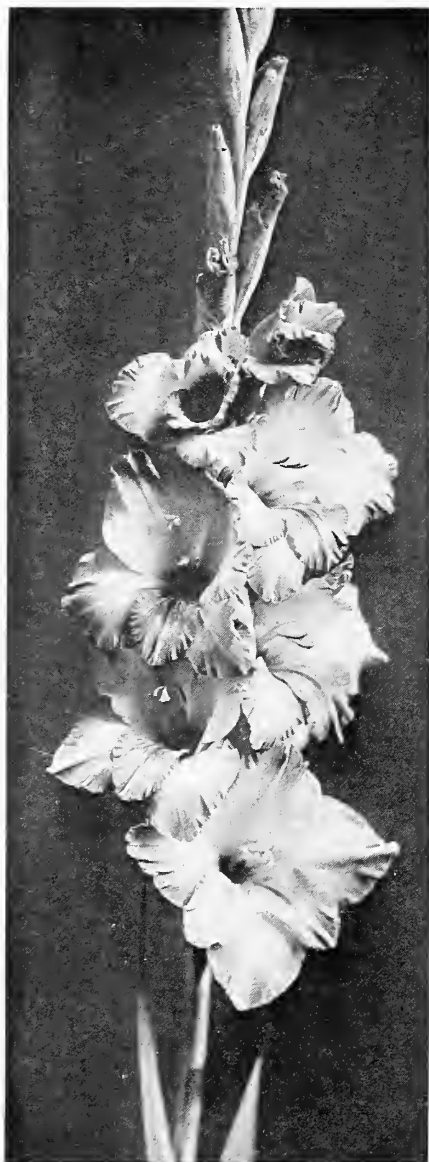

We recommend that every florist purchase at least a few thousand "California Virginia" and they will, we believe, recognize its beauty, and join with us in congratulating Mr. A. E. Kunderd, the originator.

We offer for this season size 1½" and up at \$55.00 per 1,000; size 1¼" to 1½" at \$50.00 per 1,000; size 1" to 1¼" at \$45.00 per 1,000.

AMERICAN BULB COMPANY

Chicago and New York

Plant Freely of Dahlia, "Jersey's Beauty" for Cut-Flowers.

E. J. SHAYLOR

An outstanding cut-flower variety and one you should have.

	1½-in. up Per 100	Per 1000	1¼-1½-in. Per 100	Per 1000
AMERICA. A larger number is forced for winter flowers than any other variety. Color, soft lavender-pink. More flowers are open at one time on the symmetrical spike of this Gladiolus than any other we know of. The standard commercial pink.....	\$1.85	\$16.00	\$1.65	\$14.00
ARIZONA. Rose-pink; dark crimson blotch; grows erect, flowers beautifully placed. Early, good forcer, admired equally as much as Pendleton..	3.10	27.00	2.85	25.00
ALICE TIPLADY (Prim.). Rich orange; extra fine, a great favorite; about 50 per cent produce two flowers	4.00	35.00	3.70	32.00
ANNA EBERIUS. A little different in color from anything on the market. Dark velvety plum rose, throat deeper shade. This is a color combination that florists have been hoping for; it harmonizes well in most all kinds of floral work	4.50	40.00	4.25	38.00

	1½-in. up Per 100	Per 1000	1¼-1½-in. Per 100	Per 1000
AUTUMN QUEEN. Color cream-yellow, upper petals suffused with peach blossom pink; lower petals striped carmine-red; when planted late opens full and wide in autumn.....	\$2.85	\$25.00	\$2.65	\$23.00
ARLON (Prim.). Very large, wide petaled flower of light salmon. Showy..	3.60	32.00	3.35	30.00
BARON J. HULOT. The best deep blue; deep violet-blue with many open flowers on tall spike.....	5.00	45.00	4.65	42.00
BRENCHLEYENSIS. Bright red. Tall grower of a striking red color, a choice cut flower and ideal for landscape work	2.85	25.00	2.35	20.00
BYRON L. SMITH. Lavender on white ground; exceptional for cut flowers..	5.50	50.00	5.00	45.00
CHICAGO WHITE. A fine white variety with lavender stripes on lower petals. From seven to eight flowers open at one time. Good forcer, one of the best whites.....	2.15	18.00	1.90	16.00
DAINTY BLOSSOM. Tall, slender, graceful plant. White faintly blushed. Placed on stem like primulinus.....	4.00	35.00	3.65	32.00
DAISY RAND. Deep salmon pink over white ground	4.50	40.00	4.00	35.00
DR. NORTON. The finest cream and pink; the sensation amongst the newer Gladioli shown at the American Gladiolus Society's show, and awarded the highest honors; a variety that is really in a class by itself; exceptionally fine for cut flowers.....	4.50	40.00	4.00	36.00
DUCHESS OF YORK. A seedling of the well known Baron J. Hulot, has the same habit but the flowers are much larger and of a more beautiful purple-blue color. We think very highly of this grand variety.....	6.50	60.00	6.00	55.00
EARLY SUNRISE. Large-flowering Gladiolus; salmon-red; a favorite for indoor forcing in California and much thought of in the Chicago market....	5.00	45.00	4.50	40.00
EVELYN KIRTLAND. Conceded to be the most beautiful, brilliant Gladiolus in existence. The color is a beautiful shade of rosy pink, shading to light pink toward the center, with brilliant blotches of scarlet on lower petals. The whole flower overlaid with a glistening luster that serves to harmonize the varied coloring.....	4.25	38.00	4.00	35.00

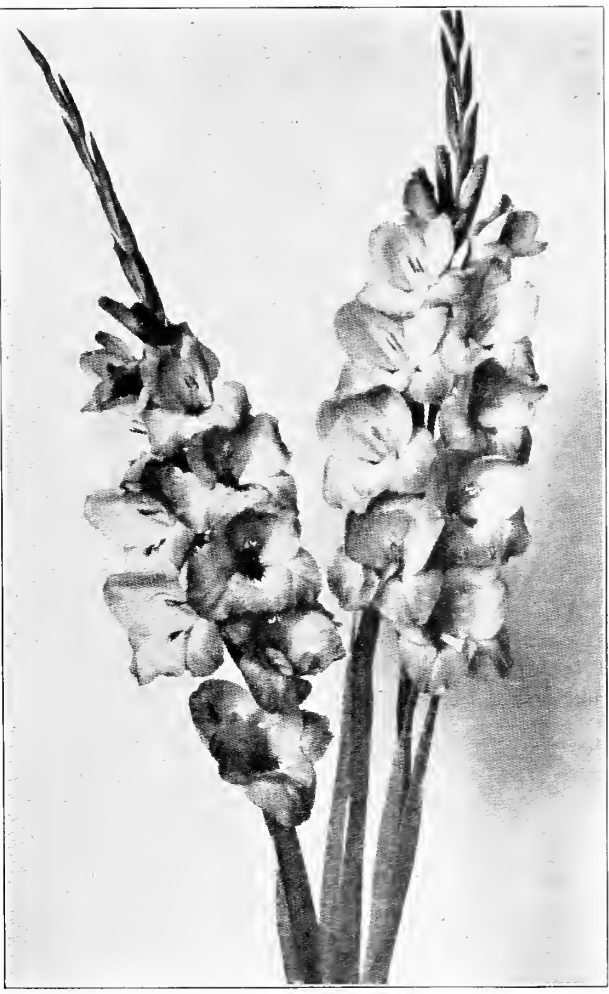

E. J. SHAYLOR [See Illustration Opposite]

A beautiful deep rose-pink; slightly ruffled; has created the greatest sensation during the past years, wherever shown. Was awarded certificate of merit by the Royal Horticultural Society of England, Aug. 10, 1920. One of the very best forcers; brought the highest price of any variety in the Chicago market last season; in a class by itself. 1½ in. up, per 100, \$4.15; per 1000, \$37.00; 1¼-1½ in. per 100, \$4.00; per 1000, \$35.00.

FAERIE. Major petals creamy pink splashed with a darker tone; lower petals lemon yellow with fine lines of crimson and lipped with soft pink; spike tall and straight; a fine variety..	\$5.50	\$50.00	\$5.00	\$45.00
FLAMING SWORD. A variety that is coming to the front very fast, of brilliant red color, opens well and comes into flower very early. We can recommend this sort very highly.....	8.00	75.00	7.50	70.00

GLADIOLUS ANNA EBERIUS.

MONA LISA

A KUNDERD INTRODUCTION:

Strong plant. Many flowers open at a time. Of palest soft rose or blushed white. A magnificent almost pure self color. Gorgeous. Price: 1½ inch up, per 100, \$4.00; per 1000, \$35.00; 1¼ inch up, per 100, \$3.50; per 1000, \$30.00.

Extract from the writings of Fritz Bahr, author of "Commercial Floriculture" and for the past 40 years a practical grower.

GLADIOLI—Can You Make Them Pay?

In spite of all that has been said and written about Gladioli, the many years they have been with us and the many beautiful new sorts which have been introduced during the past 20 years, but comparatively few florists make the money out of them they should. To make Gladioli pay one must handle desirable sorts to begin with, start planting from January on up to the time when everybody is filling gardens with them, and plant again for a late crop. A batch of bulbs planted now and followed up every three weeks or so will not only produce the finest spikes from May on but make it a most profitable crop which can be successfully handled in even the smallest greenhouse with 5 ft. of headroom above the benches, and if short on bench room just now you can carry the plants along in 4-in. pots for the next two months and plant out later. A Carnation house temperature does nicely—for extra early outdoor flowering bulbs can be started the same way in pots, say about the first of March, and planted in a frame later. Good sorts cost money, but they are the only ones for the florist to handle, and it pays to take care of them. You can't grow too many, but try to have them in flower at a time when the people who buy them haven't any of their own in the garden.

GLADIOLUS

New Large

Flowering Hybrid

"Prim"

or "Art" Varieties

To growers who have had failure under glass with the large flowering Gladiolus this type is recommended. Equally desirable for out-door culture. They cannot only be flowered in a comparatively short period of time, but they not infrequently produce two or more flowers to the first size, properly cured, forcing bulb.

The rich tones contained in some of this new type particularly fit them to the obtaining of "high art" effects and harmonizing in vase and basket work in connection with the new Dahlia-flowered Zinnia, etc.

Mr. George Weinhoeber, the well known Chicago retailer, known from coast to coast for his flower artistry and ability to harmonize flower colors, likewise Holm & Olson, of St. Paul, Minn., and Max Schling, of New York City, both well known for their skill in flower arrangement, have used this particular type of Gladiolus in their high class vase and basket work almost since the introduction of this worthy type.

Alice Tiplady

The introduction of this wonderful variety caused the florists' trade to "sit up and take notice" of the real value of this new type. A grand, large Hyb. Prim. of the most beautiful orange-saffron color. Very choice. Alice Tiplady was awarded the First-class Certificate of Merit by North Shore Horticultural Society, Manchester, Mass., Summer of 1919. Winner of hundreds of later awards. We offer bulbs grown from the originator's (Kunderd) stock.

Alice Tiplady has created somewhat of a sensation in the European cut flower markets, one English grower having recently purchased from us 50,000 of same for present delivery.

WONDERFULLY
PRODUCTIVE

ONE-AND-ONE-QUARTER-INCH BULBS OF ALICE TIPLADY, MAIDEN BLUSH AND ROSE LUISANTE SEEM TO BLOOM AS FREELY AS DO ONE-AND-ONE-HALF-INCH BULBS. TRY THEM FOR FORCING.

Illustration above indicates, insofar as printed matter can convey, the striking effect which can be realized by the use of new large-flowering hybrid or "Art" Gladiolus combined with A. B. C. Gold Medal Dahlia-Flowered Zinnias, etc. Arrangement by George Weinhoeber, the well known retail florist of Chicago. "Maiden Blush" Gladiolus Predominating.

Maiden's Blush

This Gladiolus has a combination of qualities that promise to make it one of the most popular varieties in existence. Earliest of all. Forces in seven weeks. Most attractive and charming, deep enchantress pink. Free-blooming. Produces an average of two spikes from first size bulbs when forced, and when grown outside the second size bulbs often act in the same manner. Prolificness. Makes an abundance of large bulblets that germinate easily. We hold possibly the largest stock of Maiden's Blush in this country. Another variety that holds high prominence in England—some growers planting as high as 100,000 in a season for the cut flower markets.

EXCLUSIVE PRODUCT OF A. B. C. AMERICAN-FRENCH-DUTCH AND JAPANESE BULBS; ALSO AMERICAN ROSES, HYDRANGEAS AND SPIRAEA IN GREENHOUSE OF WASHINGTON PARK, EAST CHICAGO, IND., AT EASTER TIME. YOU CAN HAVE LIKE SUCCESS BY PLANTING A. B. C. "SUPREME" QUALITY STOCKS.

Buying Imported Bulbs, Plants, Etc., in Advance of the Season

Florists generally throughout the country, are realizing forcibly the actual benefit to be obtained in making arrangement early in the year for their needs in Dutch, French, Japanese and other Bulbs. Such action on the part of the buyer enables us to anticipate requirements and take advantage of early quotations which are almost, if

not always, invariably lower than prices ruling when shipping season opens in Europe.

Buyers should bear in mind that in making arrangements for their Bulb needs now they have all to gain since we guarantee market prices at time of shipment. Act at once for your own interests.

Why We Can Supply You With Bulb Stock to Advantage

Our establishments are located at central points, namely, New York and Chicago.

Personal inspection during growing and packing season.

A force of trained employees who "know bulbs," many of whom have had a lifetime training in this particular line.

We advance duty, forwarding, and all expenses, no charge is made for cases or packing, and our invoices show exactly the actual cost of produce placed on cars at American shipping point. Our terms of payment are liberal to buyers of time standing, such extension of

time being allowed on duty and all expenses as well as on cost of bulbs (we do not collect for such at time of shipment as occurs when you import direct); shipping f. o. b. New York or Chicago, thus eliminating all worry and possibility of broker's overcharge to the buyer. Our experts visit the most prominent bulb forcing centers of this country during flowering season as well to keep in close touch with the public demand, thereby insuring our customers varieties that are in keeping with the times.

We can and will make it worth your while to look to us for your bulb needs each season.

A. B. C. IMPROVED "ERABU"

The Most Valuable Florists' Lily Introduced to the Trade in the Past Twenty-five Years

During the year of 1919, our Mr. A. Miller made a tour of the Lily producing fields in Japan and noted particularly an exceptionally good type, unusually free blooming, the flowers of which attained a much stronger texture than shown in any other variety. Furthermore, the generally strong character and healthfulness of the plant appealed to Mr. Miller as being the type that florists would appreciate. Arrangements were then made for a supply of these Lily bulbs from the Island of Erabu, sample cases of which were exhibited at the florists' convention held in Detroit, Mich. August, 1919. Florists quickly appreciated this worthy variety and have encouraged us to maintain the high standard of same.

LILIUM "ERABU"

Introduced to America by A. B. C. in the year 1919. Especially recommended to growers who are required to carry Lily plants under comparatively cool temperatures for Easter bloom.

(Erabu Grown, none genuine unless certificate vised by Japanese government accompanies each case.)

LILIUM ERABU

True type, introduced by us in 1919. Exhibited at Detroit in 1919. Per case

9-11—100 to case.....	

SO LITTLE USE FOR LILIES!

"To tell the truth about the matter, we sell so very few Easter Lilies during the year, outside of Easter week, that it doesn't pay us to buy a case of bulbs and try to grow them ourselves." Whenever a florist speaks in that way, he is talking himself out of making money. We are living in an age where Callas are used for bridal bouquets and Easter Lilies are seen at the weddings as well as funerals and on practically every other occasion where flowers are used, but you won't sell any if you haven't any to sell. Get acquainted with the easily grown Lilies; it will pay you. Plant a few cases now and during winter, of cold storage bulbs; let your customers see them in the store or in floral arrangements and you will soon need a good many more cases of bulbs.

Excerpt from remarks of Fritz Bahr, noted Horticultural Writer and Florist, in the Florists' Exchange.

LILIUM ERABU. A. B. C. Improved Strain.

Each case of A. B. C. Erabu Lilies contains government certificate, insuring you of trueness of type and healthfulness of bulbs. Erabu is particularly recommended to growers who are required to carry Lily plants under comparatively cool temperature for Easter bloom.

What "Fritz Bahr" the Noted Horticultural Writer and Florist Says of the "Erabu" Lily:

(EXCERPT FROM THE FLORISTS' EXCHANGE)

THE RETAIL GROWER'S LILY

Formosum and Erabu Lilies are not superior to the Giganteum or Harrisi, but they can be successfully grown in a 50 deg. house, are easily handled, don't all bloom at the same time and are irregular in height. You can please customers who wish short plants as well as those looking for 4-ft. stems, and an exceptionally high percentage of bulbs will grow into salable plants. But especially take into consideration the fact that a batch of bulbs planted on the same date and grown on in the same temperature, will give you flowering plants over a period of 4 to 6 weeks. What other Lily have we more worthy of recommendation to the retail grower?

LILIUM ERABU

Place order now for delivery from 1927 crop, sizes 7 to 9 inch to 11 to 13 inch. Market price at time of delivery.

SEE NEXT PAGE FOR LIST OF HARDY LILIES.

Year after Year A. B. C. Lilies

continue to be the choice of careful buyers. The reputation that holds so many firm friends for A. B. C. Lily Bulbs is a reliable guide for all who seek quality.

NEW CROP LILIES

A. B. C. "SUPREME" Quality from Cold Storage LILIUM GIGANTEUM "A. B. C. Mountain Grown"

Lilium Giganteum remains as the standard variety to grow for Easter under heat control. Mountain Grown Lilium Giganteum are superior to the Saitama Grown Giganteum. Saitama is the section where about 75% of the Giganteums are grown and in securing Lilies free from disease and such quality, you are absolutely safe in buying Mountain Grown—cost slightly more but much cheaper at the finish.

	Per Case
6 to 8-inch, case of 400 bulbs.....	\$22.00

Lilium Giganteum "A. B. C. Mountain Grown" from Cold Storage

We aim to supply Lilium Giganteum the year around and we believe it will be to your interest to arrange for your total anticipated needs now and for delivery as required throughout the season. Write for latest quotations.

"FRITZ BAHR SAYS"

In the Florists' Exchange

"Did you ever plant too many Rubrum or Magnificum Lilies? For the average florist it means just this: He can get along without Rubrum Lilies, even not miss them. On the other hand, those who once get into the habit of using them usually find them such a profitable and at the same time easily handled crop that they try each year to prolong the flowering period, which, with the help of cold storage bulbs, is not hard to do."

(SEE NEXT PAGE)

LILIUM GIGANTEUM. Mountain Grown

L. Rubrum (Magnificum) is particularly desirable for corsage bouquets, memorial designs, etc., while L. Auratum, especially when grown under glass, has practically no competition as a decorative flower.

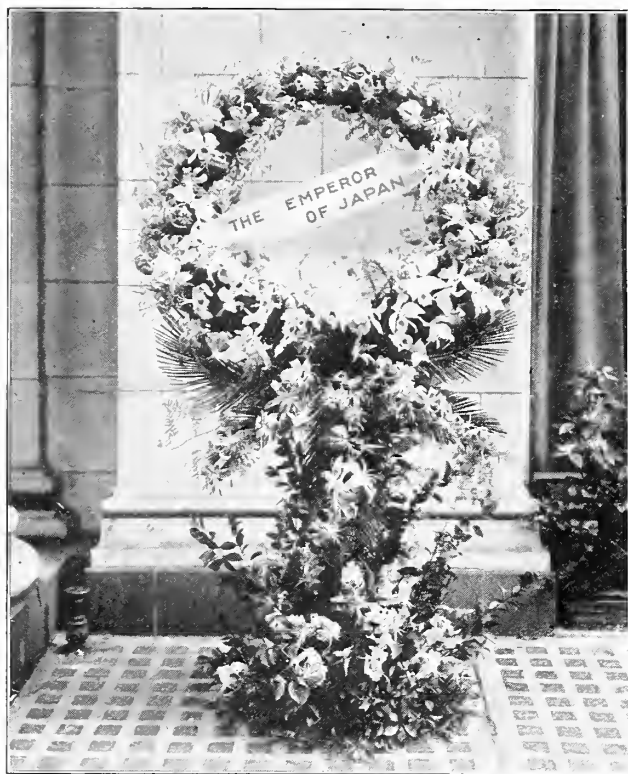

Planting Table For Giganteum Lilies

Excerpt From "The Florist's Review"

The Review receives so many queries in regard to giganteum lilies, for Easter mostly, but in some measure for other occasions, that it has endeavored to arrange a planting table, with the dates of starting, the approximate time of flowering, and the average temperature needed to bring them into bloom at various periods. Of course these dates are merely approximate; severe cold or intense heat may retard or advance plants, and long spells of dark weather will also have their effect. While some lilies do well when grown comparatively cool, the best success with giganteums is always secured when they are grown warm from the start. Moderate watering is necessary until the pots are nicely filled with roots; then an ample supply is needed. Fresh bulbs require more water at all stages of their growth than cold storage ones; they also require a longer season to come to perfection.

As lilies make all their best roots from the tops, and not from the bottoms of the bulbs, it is an advantage to start them in 4-inch pots, later shifting and burying the bulbs deeper in 6-inch pots, or to put in 6-inch pots at once, setting the bulb well down, and, after growth has started, to give a top-dressing.

STANDING WREATH
Illustrating the Use of *Lilium Speciosum Rubrum*
(*Magnificum*)

with orchids in an unusually high class piece of designing. Sent by the Emperor of Japan as a tribute to our late President Warren G. Harding. Photograph furnished by the well-known florists, J. H. Small & Sons, Washington-New York. *Lilium Rubrum* (*Magnificum*) cannot be excelled for supplying "tone" to most all kinds of floral work.

LILIAM AURATUM (Gold Banded Lily of Japan)

Excerpt From The American Florist by "Jay Dee"

Flowers of "Class"

While visiting with one of our prominent Chicago retailers a few days ago he displayed to me a large spray composed of *Lilium Rubrum* (*Magnificum*) blooms tied at the base with a bow of chiffon, immediately above which were several bunches of pure white and lavender sweet peas; the background being of ferns. The whole produced a very rich and high toned effect. Said florist informed me that this arrangement was his piece de luxe, especially during the summer season, and the particular spray referred to was for one of his wealthy customers who requested that "something different" be furnished and at open price. His charge was the sum of \$50.00 for this particular spray. The possibility for a good margin of profit with such a combination as here mentioned needs no comment on my part.

Lilium Rubrum (*Magnificum*) bulbs can now be secured from dealers during almost the entire year through the fact that they are carried in cold storage and planted by many growers semi-monthly so as to insure almost continuous bloom. They succeed best in a cool temperature under glass, and from early May can be planted out in the open ground to come into flower during August. They require a light friable and well drained soil, succeeding best in, at least partial shade. Some growers following the plan, cultivate them in lath houses under which the bulbs seem to thrive two years or more without being disturbed. Numerous growers arrange with their dealers for a certain number of cases of them when the new crop of bulbs come in November and December, and for shipment during the ensuing months from cold storage as wanted. *Lilium Magnificum* is truly a money maker for the florists, both grower and retailer, and their popularity is jumping by leaps and bounds.

A prominent Ohio grower cultivates the above named lilies in discarded window glass boxes 18-24, setting them about 6 inches below the top. As can be readily believed, these boxes can be set into any waste space in the greenhouse and moved around at will. After bloom has passed the boxes are laid on their side, allowed to rest for a period of months, and then started into growth again for another crop. A moderate amount of bone meal is added as fertilizer.

New Chinese Regal or Royal Lily

LILIUM REGALE OR MYRIOPHYLLUM

SEE ILLUSTRATION BELOW

One of the most beautiful of all known lilies, the exquisite blending of tints and colors forming a charming contrast with the rich, deep-green foliage. Highly recommended for general culture both for the open ground and for pots.

The outside of the flower is white, very faintly tinged with yellow at the base of the trumpet, and with pink at the point. The midribs are purple. The inside shows a bright canary-yellow deep in the throat, shading to pure white with just a hint of pink showing through from the outside. Mature bulbs produce plants 3 to 4 feet high, bearing 3 to 10 flowers.

Size 5 to 6-inch circumference, per doz., \$4.50; per 100, \$35.00.

THE REGAL LILY

General List of Hardy Lilies. Note: We do not supply a less number than 12 of a variety of Lilies offered on this page

Prices quoted are per dozen, per 100 and per 1,000 in the order given.

Batemani—Three to four feet high with five to ten flowers of reddish-orange color. Blooms in July or August...\$2.00 \$15.00 \$140.00

Canadense—Bell shaped blossoms which vary in red and yellow colors. Three to five feet high.....\$1.00 \$8.00 \$70.00

Pardalinum (Leopard Lily)—Rich scarlet and yellow flowers, spotted with rich brown. Robust and free-flowering.\$2.00 \$15.00 \$140.00

Elegans Mixed—Mixed shades of orange..... 1.00 7.00 60.00

Hanson—Attains height of three to five feet. Reflexed blossoms two inches across, petals bright orange-yellow, faintly spotted brown, eight to twelve in a cluster, flowering in June or early July. \$7.00 per dozen; \$50.00 per hundred.

Superbum—Three to six feet high, flowers from five to forty, nodding brilliant orange-red. Blooms in July.....\$1.50 \$9.00 \$80.00

Krameri. Unique for its color and grows from 2 to 4 feet high. The funnel-shaped finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color, often shaded blush. \$1.50 per dozen; \$10.00 per hundred.

LILIUM TIGRINUM

The old-fashioned "Tiger Lily." Florists are again taking up the cultivation of this showy, bright orange Lily with black spots, blooms freely outdoors in midsummer and provides showy material for window decoration, basket work, etc. Single-flowered Splendens, per doz., \$1.75; per 100, \$12.00. Double-flowered, per doz., \$2.00; per 100, \$14.00.

American grown bulbs of L. Tigrinum seem to do best.

A. B. C. LILY HEADQUARTERS

A FINISHED "BABY" ROSE
Showing two plants in a 6-inch pot

Florists' Forcing Roses

Roses forced in pots for Easter and other spring holidays have increased greatly in number in the past few years. No plants are more attractive and the demand each spring is larger than the supply. Through contract arrangements with specialist growers we are in position to supply strong two-year-old budded stocks of the highest quality and in the most up-to-date varieties.

BABY ROSES

IDEAL. We consider this the "last word" in Baby Roses. Color intense lustrous garnet; the flowers are produced in very large trusses and are very effective.

BABY RAMBLER (Mme. Levassieur). Crimson.

BABY TAUSENDSCHON. Pink, white shading.

BABY ORLEANS. Geranium red.

BABY ERNA TESCHENDORF. Rosy pink.

BABY ELLEN POULSON. Cherry-pink.

BABY KOSTER'S ORLEANS. Rosy pink.

And all worth-while varieties.

CLIMBING OR TRAILING VARIETIES

EUGENE JACQUET. A vigorous growing Rose, producing large clusters of fragrant cherry-red flowers. We predict that Eugene Jacquet will be more freely grown for Easter forcing than any of the other sorts usually produced for this purpose.

ROSARIE. Sport from Tausendschon. Like the standard Tausendschon in habit with very charming pink or carmine flowers. An American introduction worthy of much attention. A favorite florists' forcing variety.

TAUSENDSCHON. The buds are cherry-pink, opening to very double flowers of softer shades that eventually fade to white.

DOROTHY PERKINS. Clear cherry-pink, slightly fragrant flowers, borne in great profusion and lasting for a long time.

EXCELSA. H. W. (Walsh, 1908.) An intense crimson, with the edges of the petals a little lighter, produced in immense clusters.

CRIMSON RAMBLER. Great masses of crimson, semi-double flowers are borne by the vigorous plants.

PAUL'S SCARLET, THE BRIGHTEST AND PUREST RED OF ALL PILLAR ROSES

MISCELLANEOUS ROSES FOR POT PLANTS

HYBRID PERPETUAL. (Leading varieties, such as Magna Charta, Paul Neyron, etc.)

HYBRID TEA. (Leading varieties.) 2-year-old budded stock.

ALL ORDERS FOR ROSES BOOKED AT MARKET PRICE.

BENCH OR GARDEN ROSES FOR SPRING DELIVERY

This is now an important department of our business, and we have in Chicago and tributary towns the largest field in the world to draw from. We are generally in position to supply all varieties grown for cut flowers such as Premier, American Beauty, Columbia, Milady, etc. Write for latest market quotations or refer to list in classified columns of the Florists Review, beginning March, 1927.

FICUS ELASTICA

(RUBBER PLANTS) MOSS ROOTED CUTTINGS

Appreciating the importance of shipping Ficus cuttings that are properly rooted, with healthy leaves and packed to reach the buyer in good condition, we have arranged with a specialist in Louisiana for a large supply of same for delivery during the coming season. Ficus Elastica is now one of the most profitable plants which the florist grows. Price on application.

Poinsettias, the Better Kinds

The Poinsettia Now Holds the Same Place in the Floral Kingdom at Christmas Time as Does the Lily at Easter Time

POINSETTIA
Christmas True Red

We have contracted with a specialist grower in California to supply us with a quantity of heavy field plants for propagating purposes and offer same as follows F. O. B. Calif. Delivery spring season 1927.

EARLY RED—TRUE CHRISTMAS RED. (This is the standard variety) **AND PINK.** Price, \$15.00, \$18.00, \$25.00 and \$30.00 per 100 according to size.

OAK LEAVED AND THE NEW VARIETY "HOLLYWOOD" recognized as a big improvement over the "TRUE CHRISTMAS RED." Price: \$25.00, \$35.00 and \$50.00 per 100 according to size.

POINSETTIAS FROM 2½-INCH POTS, DELIVERY JUNE AND LATER (MARKET PRICE)

SPIRAEA CLUMPS FOR FORCING

Spiraeas, previous to the U. S. embargo, were in great favor with the trade, after which, because of the difficulty in obtaining satisfactory quality roots these desirable plants lost their vogue to a large extent. Now, however, roots equal, if not superior, to stock formerly imported are obtainable, and at a price that is bound to bring back this old favorite to popular demand. Spiraeas provide a very satisfactory blooming plant at very low cost, especially for Easter and Mothers' Day sales.

"EILEEN MASSON"

A New Pot Mum You Will Want.

This extraordinary early-flowering Mum can be had for potted plant sales from June 15 to the middle of October. It is in bloom as early as June 15, but can be had for a later date by removing the buds, as it grows a new lot of buds; these in turn can be removed again if bloom is wanted for the middle of October.

It grows only to a height of 12 inches and requires absolutely no pinching to keep it short. Ideal in every respect for a potted plant.

The color is a beautiful dark pink. It grows a double row of petals about two inches in diameter.

EILEEN MASSON received 83 points from The Chrysanthemum Society of America.

Plants out of 2-inch pots,

TO INSURE A GOOD SEED GERMINATION USE "SEMESAN"

The Premier Seed Disinfectant

Controls Disease

Hastens Germination

Produces Sturdier Plants

Increases Crop Yields

Improves Quality

Prevents Damping Off

The Semesan Disinfectants have revolutionized seed disease treatment and represent the most remarkable advancement of the century in scientific agriculture. Trained observers testify that they not only successfully control seed, plant and soil diseases but also exert a stimulatory effect upon the growth of seedlings and plants with a consequent increase in yield and improvement in quality of the crops.

Florists write us such tributes as: "We used Semesan on poinsettia cuttings last summer with excellent results;" and "My Semesan-treated aster seeds gave an almost perfect stand as nearly every seed germinated."

Semesan—Commercial results prove that Du Pont Semesan is the premier seed, plant and soil disinfectant because it is the only chemical which can be applied in either the liquid or convenient dust form to prevent or control effectively a most diversified variety of parasitic diseases and fungoid growths borne by seeds,

bulbs, corms, roots, tubers, plants and grafts, as well as some of those which infest the soils. Too numerous to mention here are the uses for which Semesan is endorsed by agricultural authorities, but booklets containing all the facts will be gladly furnished.

ELIMINATING GLADIOLUS SCAB

Semesan has proved to be a most effective remedy for the elimination of gladiolus scab, several large growers having cleaned their stock of this devastating disease the past season by free application of above.

Especially prepared for the control of Brown and White Scale on Ferns, Ivy, Palms, etc.		
Put up in gallon cans		\$4.00

TESTIMONIALS

Cicero, Ill., Nov. 24, 1926.
We have carefully tested and are now using the No. 1 White Fly, the No. 2 Mite, and No. 5 Leaf-Tyer Insecticide and find them very efficient for the control of the various insects they are intended.

All three of these products sincerely merit our recommendation.
FRANK OECHSLIN.

Morton Grove, Ill., Nov. 24, 1926.
We have tried the No. 1 White-Fly Insecticide and find it very good. We have also tried the No. 2 Mite Insecticide and assure you we can readily recommend it to anyone.

The No. 2 Mite Insecticide has proven very satisfactory, as we are able to keep our Cyclamen perfectly clean and free from Mite.

POEHLMANN BROS. CO.,
Carl C. Mueller, Supt. Plant Department.

We are headquarters for Bamboo Cane Stakes, Japanese Mats (direct importations of both, semi-yearly from Japan), Neponset Paper Flower Pots, Sphagnum Moss, Insecticides, Fertilizers, etc. If you are in the market for any of the above mentioned in volume, please write us for latest market quotations.

A. B. C. LILY HEADQUARTERS

Year After Year A. B. C. Lilies

continue to be the choice of careful buyers. The reputation that holds so many firm friends for A. B. C. Lily Bulbs is a reliable guide for all who seek quality.

LILIUM ERABU. A. B. C. Improved Strain

LILIUM GIGANTEUM. A. B. C. "Mountain Grown"

A. B. C. "SUPREME"

NEW CROP LILIES

QUALITY OUR FIRST AIM

We are recognized Lily headquarters for American and Canadian florists. This is our main specialty; growers placing their orders with us can rest assured that no better quality or better grading comes to America. Large buyers who are particular and study the business recognize our strength in the Lily business and we are entrusted with orders for from a case to a thousand cases per customer. Our Lilies are shipped to us in iced refrigerator cars; this enables the Lilies to obtain a cool resting period sufficient to place the bulbs in a reasonably dormant condition before delivery to you; growers realize it is necessary to rest a Lily in cold storage before being forced.

As pertains to all merchandise, one cannot expect the best quality at the cheapest price. Some Lily suppliers in Japan know nothing about the horticultural trade and the importance of supplying to the florist fully matured bulbs, but are speculators; they operate in Lily bulbs in Japan as we speculate in cotton and corn here; the seller never sees the merchandise. Low prices are an inducement to buyers. Our Lilies have been known to be the best that come from Japan, shipped to us by men who have been engaged in the business from the time that the first Lily bulbs came from that country. Our supplier controls seed bulbs of true strains of Erabu, and this trueness is maintained. Our last season's imports were more than 11,000 cases; this year our advance sales equal the quantity of last season. This is, we believe, a guarantee of satisfaction.

Lilium Erabu. Introduced by us in the year 1919; exhibited at Detroit convention in August of that year, and of the true type, not the drooping kind, which is sold as Erabu by some Japanese shippers. Picture on page in this advertisement gives true description of our Erabu.

Mountain grown *Lilium Giganteum* is accepted by critical Lily growers as the best *Giganteum* now in use. It is grown in the mountain regions of Japan, free from disease.

In securing Lily bulbs, remember, it is quality, then service, and next cost of the bulbs that should be your interest. The supplying of "honest to goodness" Lily bulbs has built our business—11,000 cases last year. We are jealous of our "Lily reputation" and likewise of the numerous departments which have enabled us to qualify the phrase "Supreme" Quality.

Following is a few of the numerous testimonials we have on file for A. B. C. "Supreme" Quality Lilies:

Adolph D. Mohr, Florist, 76th and Broadway, Kansas City, Mo.

April 6, 1922.

American Bulb Co.,

172 N. Wabash Ave., Chicago, Ill.

Gentlemen: While resetting Lilies, we came to your lot. My nephew, who is sixteen years of age, said this:

"Now, what is the reason that all at once we get into such an even, splendid lot of Lilies so well budded?"

My answer was that they were from the AMERICAN BULB COMPANY, and I feel that they are the best I have on the place. You will have to reserve for me more than my usual lot for next year.

Thanking you for past favors, I remain,

Very truly yours,

(Signed) A. D. MOHR.

Again

Adolph D. Mohr, Florist, 76th and Broadway, Kansas City, Mo.

October 1, 1926.

American Bulb Co.,

182 No. Wabash Ave., Chicago, Ill.

Gentlemen: I have your letter regarding Lilies and since writing you in 1922 as you know you have been supplying me with all of the Lily bulbs grown on my place. So long as you continue to furnish such satisfactory stock my orders for Lily bulbs will be in your hands.

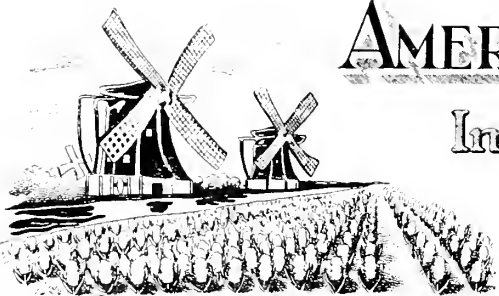

Yours very truly,

(Signed) A. D. MOHR.

N. B.—We believe you can realize like success by looking to us for your Lily bulb needs.
